# GENERAL TERMS AND SALE CONDITIONS

## 1. Generalities.

The prices of MADEL price-list are always intended as "ex-factory", without taxes and with MADEL standard packing.

The delivery of a purchase order implies the acceptance on the part of the customer of MADEL applicable price list at the moment.

MADEL reserves the right to modify, add or exclude the products included in the price list or general catalogue at any time.

## 2. Order acceptance.

All purchase order shall be in EURO, in writing and with its correspondent purchase order number.

## 3. Order cancellation or modification.

Once the purchase order is placed, the CUSTOMER will not be allowed to make any cancellation or modification, unless MADEL has expressly accepted it in writing.

The cancellation of purchase orders, which have not been accepted by MADEL, entitles MADEL to invoice them to the CUSTOMER with all the expenses and damages incurred because of this cancellation.

## 4. Terms of delivery and claims.

**4.1** MADEL will not accept any claim from the CUSTOMER when one (1) month has passed since the date of delivery of the material.

After this period, MADEL will only accept the claims of material with manufacturing defects. The material can be returned only when the claim has been done within the warranty period and MADEL has accepted such defects by means of a writing statement.

**4.2** Upon acceptance of the purchase order, MADEL shall in a timely manner provide to the CUSTOMER a written statement, informing the delivery date. MADEL shall not under any circumstance be liable to compensate or pay any penalties due to delays in the delivery of purchase orders.

## 5. Warranty.

MADEL warrants its products against manufacturing defects for a period of two (2) years, from the date of delivery of the goods to the CUSTOMER.

The warranty shall only cover the replacement of defective products, not including workmanship, trips, replacement of other damaged products, etc., or any other disbursements, charges or different damage, and under no circumstance claims for damages for loss of profit that the CUSTOMER or third parties may claim. The warranty of MADEL will not be effective in following circumstances:

- When the product has been incorporated or applied by the CUSTOMER or third parties to other products or plant, without observing the technical and installation methods arranged by MADEL.
- When the installation of selection of products had been inaccurately or wrongly made.
- When the product has been manipulated or applied to different purposes than those for which it was originally conceived or in any other way different that the provisions included in MADEL technical guide.
- When the products has been damaged due to manipulations or repairs subsequent to their first installation.

## 6. Payment.

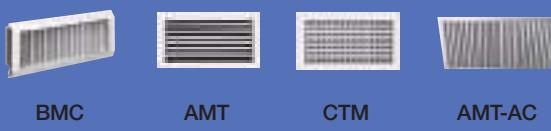

MADEL is entitled to demand the prepayment of new supplies, or according to its judgement, a warranty high enough for the payment of such products, when the risk to collect the CUSTOMER debt before the maturity date is equal or higher to the highest sum of the credit settled by the Insurance Company with which MADEL has insured the CUSTOMER trade operations. If such insurance does not exist, MADEL is equally entitled to unilaterally settle the limit amount for the operations that may be supplied on credit, being able to demand the prepayment or a warranty high enough according to its judgement for the supplies that exceed such limit.

Payments must comply with Spanish Law 15/2010, of July 5, amending Law 3/2004, of December 29, which regulates payment terms in commercial operations at 60 days.

Likewise, the indicated legal text establishes that the indicated payment period will be calculated from the delivery of the goods or the provision of services, without in any case exceeding the established 60 days and without the possibility of an agreement between the parties that modifies the indicated maximum terms.

## 7. Jurisdiction.

For the interpretation, application, resolution and execution of this terms and conditions of sale, only the Tribunals and Courts of the city of Barcelona (Spain) shall be authorised.

# INDEX

**The nominal size of the grilles (L x H) indicates the opening sizes for their installation.**

When the installation is planned with CM mounting frames, the opening size would be 8 mm bigger (L+8 x H+8) according Sizes of the catalogue in mm. General tolerances to norm ISO 2768-1.

**RAL finishes ([www.ral.de](http://www.ral.de))**

**RAL...B** Shiny RAL, 85-95% gloss

**RAL...S** Semi-matt RAL, 60-70% gloss.

**RAL...M** Matt RAL, 20-30% gloss.

**RAL colors of fixed supplement per color 161,04 € +**

**6% per painted unit**

All the colors of the 7000 and 9000 series of the RAL CLASSIC chart in RAL finish ... S (semi-matt color with 60-70% gloss)

Colors 7048, 9022, 9023 and 9007 are excluded.

The following colors are also included in this fixed supplement: 9010B, 9010M, 9016B, 9016M, 9003B, 9003M, 9005M and 9006M.

**Other RAL colors: Fixed supplement per color to CONSULT + 6% per painted unit.**

**RAL colors: Exceptions**

**AMT, CTM** Fixed supplement and % per unit CONSULT.

**LMT-DD, LMT-MISS-DD, TRH** Fixed supplement per special RAL color to CONSULT + 25% per painted unit.

**Series DMT, DMT-X, DXT, DXL, RMT-A** Fixed supplement per special RAL color to CONSULT + 12% per painted unit.

**DCN, DCN-MOD, DCG, DCG-MOD, DSO, DSO-MOD** Fixed supplement per special RAL color to CONSULT + 8% per painted unit.

**Symbols**

**Q (m<sup>3</sup>/h)** = Air flow.

**dB(A)** = LwA1 = dB(A) = Sound power level.

**Ak (m<sup>2</sup>)** = Area of the duct (Diameter of the duct)

**V<sub>k</sub> (m/s)** = Velocity of the air in Ak.

**P (Pa)** = Pressure in Pascals.

**Formulas to calculate**

Velocity for grilles and diffusers:  $V \text{ (m/s)} = Q \text{ (m}^3\text{/h)} / A \text{ (m}^2\text{)} \times 3600$

Maximum velocity for dampers:  $V_k \text{ max.} = 7 \text{ m/s.}$

**Comfort conditions**

**A**) A higher air temperature in the summer and a lower one in the winter concerning the mean radiant temperature.

**B**) A maximum average velocity of the air of 0,15 m/s in an air conditioned room. In case of  $T > 26^\circ$ , the velocity can be increased.

**C**) Relative humidity of the air: 20% - 60%

**D**) A maximum difference of 3°C between the zone occupied by the feet and the head.

**E**) Floor temperature: Max 26°C, Min 17°C.

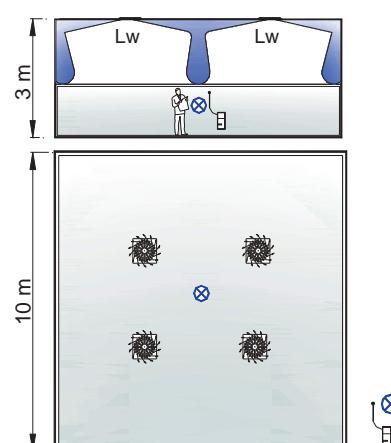

**F**) A max. of 5°C for the asymmetric radiant temperature on the vertical plane and 10°C for the horizontal plane.

**G**) Max. 0,1% of carbon dioxide in the air.

**H**) A maximum sound pressure level of 35 dB[A] and 80 dB[A], depending on what activity the place is for.

**Quick selection chart considering NC curves and the Lw data in dB (A) from this price-list.**

## Single deflection grilles

### Technical data

AMT

AMT+SP

### Description

Single deflection grilles for air supply. Individually adjustable blades. Made from aluminium.

**AMT-AN** Grille with blades parallels to the largest side (L size)

**BMT-AN** Grille with blades parallels to the shortest side (H size)

### Accessories

**SP** Opposed blades volume damper from zinc plated steel, in black colour.

**CM** Mounting frame from galvanised steel (delivered separately in 4 linear elements)

**PLRO** Connection plenum: see Accessories.

### Fixing

**(S)** Clips. It requires mounting frame CM.

**(O)** Hidden screw. It requires mounting frame CM (supplement \*)

**(T)** Visible screws (supplement \*)

### Finishes

**AA** Matt silver anodised.

**M9016** Pre-lacquered in white similar to RAL 9016. (85-95% gloss)

**R9010S** Pre-lacquered in white RAL 9010 semi-matt (60-70% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

### Specification Text

Supply and mounting of single deflection grille for air supply with individually adjustable blades parallels to the largest side serie

**AMT-AN+SP+CM (S) M9016 dim. LxH**, constructed from aluminium paint in white **M9016** with opposed blades volume damper from electro-zinc steel in black colour **SP**, invisible fixing by clips **(S)** and mounting frame **CM**. Manufacturer **MADEL**.

## Double deflection grilles

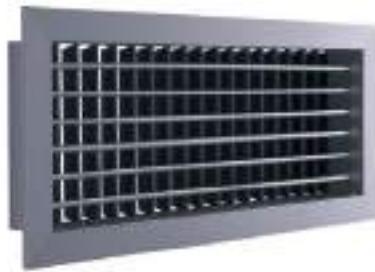

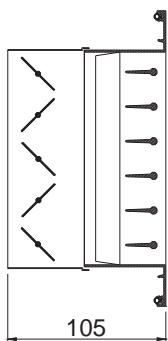

### Technical data

CTM

CTM+SP

### Description

Double deflection grilles for air supply. Individually adjustable blades. Made from aluminium.

**CTM-AN** Grille with front blades parallels to the largest side (L size)

**CMT-AN** Grille with front blades parallels to the shortest side (H size)

### Accessories

**SP** Opposed blades volume damper from zinc plated steel, in black colour.

**CM** Mounting frame from galvanised steel (delivered separately in 4 linear elements)

**PLRO** Connection plenum: see Accessories.

### Fixing

**(S)** Clips. It requires mounting frame CM.

**(O)** Hidden screw. It requires mounting frame CM (supplement \*)

**(T)** Visible screws (supplement \*)

### Finishes CTM-AN

**SLAA** Matt silver anodised. Rear blades in black colour.

**SL16** Pre-lacquered in white similar to RAL 9016 (85-95% gloss)

Rear blades in black colour.

**SL10** Pre-lacquered in white RAL 9010 semi-matt (60-70% gloss)

Rear blades in black colour.

**RAL...** Painted in other RAL colours: see INFO page.

### Finishes CMT-AN

**AA** Matt silver anodised.

**M9016** Pre-lacquered in white similar to RAL 9016 (85-95% gloss)

**R9010S** Pre-lacquered in white RAL 9010 semi-matt (60-70% gloss)

**RAL...** Painted in other RAL colours: see INFO page.

### Specification Text

Supply and mounting of double deflection grille for air supply with individually adjustable blades parallels to the largest side series

**CTM-AN+SP+CM (S) SL16 dim. LxH**, constructed from aluminium paint in white similar to R9016 (85-90% gloss), rear blades in black colour, with opposed blades volume damper in black colour, fixing by clips and mounting frame. Manufacturer **MADEL**.

## Curved blades ceiling grilles

### Technical data

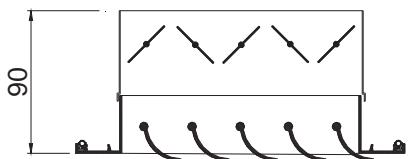

#### AMT-AC

#### AMT-ACO

#### AMT-AC+SP

### Description

Grilles with individually adjustable curved blades to be used in premises from 2,6 metres high. Constructed from aluminium.

**AMT-AC** One-Way grille with blades parallels to the largest side (L size)

**AMT-ACO** Two-Way grille with blades parallels to the largest side.

**BMT-AC** One-Way grille with blades parallels to the shortest side (H size)

**BMT-ACO** Two-Way grille with blades parallels to the shortest side.

### Accessories

**SP** Opposed blades volume damper from zinc plated steel, in black colour.

**CM** Mounting frame from galvanised steel (delivered separately in 4 linear elements)

**PLRO** Connection plenum: see Accessories.

### Fixing

(T) Visible screws.

(O) Hidden screw. It requires mounting frame CM (supplement \*)

### Finishes

**AA** Matt silver anodised.

**M9016** Pre-lacquered in white similar to RAL 9016. (85-95% gloss)

### Specification Text

Supply and mounting of grille in One-Way for air supply with individually adjustable curved blades parallels to the largest side series **AMT-AC+SP+CM (O) M9016 dim. LxH**, constructed from aluminium paint in white **M9016** with opposed blades volume damper from electro-zinc steel in black colour **SP**, hidden screw

### Description

Linear grilles in aluminium for supply or air return, with fixed bars parallel to the largest side (L size)

**LMT** Grille with end borders and fixed bars at 0°. Suitable for lengths ≤ 2 m.

**LMT-15** Grille LMT with fixed bars at 15°.

**...-DD** LMT grille with individually adjustable rear blades, parallel to the shortest side, in black colour.

**...-ARI** Grille with an end border on the left side, required to form lines > 2 m.

**...-ARD** Grille with an end border on the right side, required to form lines > 2 m.

**...-INT** Grille without end borders, required to form lines > 4 m.

**EMP** Linear core grille.

### Accessories

**SP** Opposed blades volume damper from zinc plated steel, in black colour.

**CM** Mounting frame from galvanised steel (delivered separately in 4 linear elements)

**PLRO** Connection plenum: see Accessories.

**TP** Hinged access door (supplement \*)

**A90/LMT** Inactive grille without end borders, making a 90° angle.

### Fixing

**(S)** Clips. It requires mounting frame CM.

**(O)** Hidden screw. It requires mounting frame CM (supplement \*)

**(T)** Visible screws (supplement \*)

### Finishes

**AA** Matt silver anodised.

**M9016** Pre-lacquered in white similar to RAL 9016 (85-95% gloss)

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

### Specification Text

Supply and mounting of linear grille with fixed bars at 0° parallel to the largest side series **LMT+SP+CM (S) M9016 dim. LxH**, constructed from aluminium paint in white **M9016** with opposed blades volume damper from electro-zinc steel in black colour **SP**, invisible fixing by clips **(S)** and mounting frame **CM**. Manufacturer **MADEL**.

### Description

Linear grilles in aluminium for supply or air return, with fixed bars parallel to the largest side (L size). Reduced frame linear grilles at 15 mm which makes adaptable the integration.

**LMT-MISS** Grille with end borders and fixed bars at 0°. Suitable for lengths  $\leq 2$  m.

**LMT-MISS-15** Grille LMT-MISS with bars at 15°.

...-DD grille with individually adjustable rear blades, parallels to the shortest side, in black colour.

...-ARI Grille with an end border on the left side, required to form lines  $> 2$  m.

...-ARD Grille with an end border on the right side, required to form lines  $> 2$  m.

...-INT Grille without end borders, required to form lines  $> 4$  m.

### Accessories

**SP** Opposed blades volume damper from zinc plated steel, in black colour.

**CSS** Mounting frame from galvanised steel (delivered separately in 4 linear elements)

**PMIS** Connection plenum: see Accessories.

**A90/LMT-MISS** Inactive grille without end borders, making a 90° angle.

### Fixing

**(S)** Clips. It requires mounting frame CSS.

**(O)** Hidden screw. It requires mounting frame CSS (supplement \*)

### Finishes

**AA** Matt silver anodised.

**M9016** Pre-lacquered in white similar to RAL 9016 (85-95% gloss)

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

### Specification Text

Supply and mounting of linear grille with fixed bars at 0° parallels to the largest side series **LMT-MISS+SP(S)AA** dim. LxH, constructed from aluminium matt silver anodised **AA** with opposed blades volume damper from electro-zinc steel in black colour **SP**, invisible fixing by clips **(S)** and mounting frame **CSS**. Manufacturer **MADEL**.

## Linear grilles for laminated plaster board mounting

### Technical data

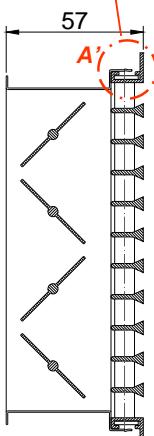

#### LMT-MINI (O)

#### DETAIL A' (LMT-MINI frame)

#### LMT-MINI + SP

### Description

Linear grilles in aluminium for supply or air return, with fixed bars parallel to the largest side (L size). Reduced frame linear grilles at 12 mm which makes adaptable the integration.

**LMT-MINI** Grille with end borders and fixed bars at  $0^\circ$ . Suitable for lengths  $\leq 2$  m.

**LMT-MINI-15** Grille with bars at  $15^\circ$ .

**...-ARI** Grille with an end border on the left side, required to form lines  $> 2$  m.

**...-ARD** Grille with an end border on the right side, required to form lines  $> 2$  m.

**...-INT** Grille without end borders, required to form lines  $> 4$  m.

### Accessories

**SP** Opposed blades volume damper from zinc plated steel, in black colour.

### Fixing

**(O)** Hidden screw.

### Finishes

**AA** Matt silver anodised.

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

### Specification Text

Supply and mounting of reduced frame linear grille at 12 mm with fixed bars at  $0^\circ$  parallel to the largest side series **LMT-MINI+SP**

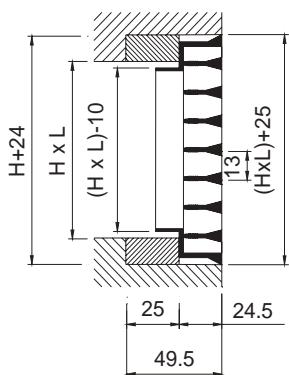

**(O) AA dim. LxH**, constructed from aluminium and anodised in matt silver **AA** with opposed blades volume damper from electro-zinc steel in black colour **SP**, fixing hidden screws **(O)** Manufacturer **MADEL**.

## Linear grilles for leveled mounting in masonry wall

### Technical data

LMT-SW+CW

LMT-SW+SP

### Description

Linear grilles in aluminium for supply or air return, with fixed bars parallel to the largest side (L size)

**LMT-SW** Linear grille with fixed bars at 0° for lengths ≤ 2 m, for levelled mounting on ceiling or masonry wall.

**LMT-SW-15** Grille with fixed bars at 15°.

**...-ARI** Grille with an end border on the left side, required to form lines > 2 m.

**...-ARD** Grille with an end border on the right side, required to form lines > 2 m.

**...-INT** Grille without end borders, required to form lines > 4 m.

### Accessories

**SP** Opposed blades volume damper from zinc plated steel, in black colour.

**CW** Wooden mounting frame.

### Fixing

1) LMT-SW are supplied with a special screws for fixing the grille to CW frame.

### Finishes

**AA** Matt silver anodised.

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**RAL....** Painted in other RAL colours : see INFO page.

### Specification Text

Supply and mounting of linear grille for levelled mounting with fixed bars at 0° parallel to the largest side series **LMT-SW+CWA** dim.

**LxH**, constructed from aluminium and anodised in matt silver **AA**, fixing by screws and mounting frame **CW**. Manufacturer **MADEL**.

# Air return **grilles**

Designed for easy maintenance

MOD models to replace a false ceiling tile

Grilles with filter DMT-FY with easy open by hidden levers

Hinged removable core without tools KLIN models

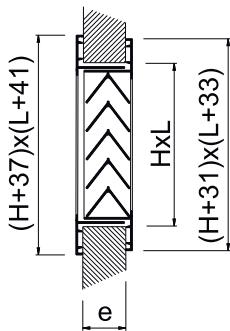

## INDEX

- 36 TRH transfer grilles**
- 37 DMT fixed blades grilles**
- 40 DMT-FY fixed blades grilles with filter**
- 42 DMT-MOD modular fixed blades grilles**
- 43 DMT-KLIN accessible fixed blades grilles**
- 44 RMT egg-crate grilles**
- 46 RMT-MOD modular egg-crate grilles**
- 47 RMT-KLIN accessible egg-crate grilles**

## Transfer grilles

### Technical data

#### TRH-A

### Description

Grilles in aluminium with telescopic frame and "V" shaped blades for air transfer.

**TRH-A** Grille with blades parallel to the largest side to use on thickness 30-55 mm.

**TRV....** Blades parallel to the shortest side.

**...-B** Grille to use on thickness 47-72 mm.

### Fixing

(T) Visible screws.

### Finishes

**AA** Matt silver anodised.

**M9016** Pre-lacquered in white similar to RAL 9016 (85-95% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

### Specification Text

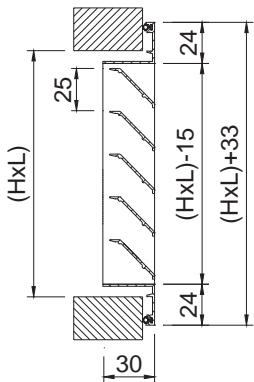

Supply and mounting of air transfer grille with telescopic frame and "V" shaped blades parallel to the largest side series **TRH-A (T) AA**, dim. LxH, constructed from aluminium and anodised in matt silver **AA**, visible fixing by screws (**T**). Manufacturer **MADEL**.

## Fixed blades return grilles

### Technical data

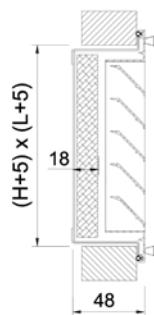

#### DMT-AR

#### DMT-AR+SP

#### DMT-AR+PFT

### Description

Air return grilles with fixed blades at 45° constructed from aluminium.

**DMT-AR** Grille with blades parallel to the largest side (L size)

**EMT-AR** Grille with blades parallel to the shortest side (H size)

### Accessories

**SP** Opposed blades volume damper from zinc plated steel in black colour.

**PFT** Filter box constructed from galvanised steel with filter K/8 class EN 779 G3. The opening size LxH must be increased by 5 mm.

**MLL** Galvanised mesh of 13x13 mm.

**CM** Mounting frame from galvanised steel (delivered separately in 4 linear elements) The opening size LxH must be increased by 8 mm.

**PLRO** Connection plenum: see Accessories.

### Fixing

**(S)** Clips. It requires mounting frame CM or plenum box PLRO.

**(O)** Hidden screw. It requires mounting frame CM or plenum PLRO (supplement \*)

**(T)** Visible screws (supplement \*)

1) The filter box is fixed in place with screws or sidepieces. The grille is held to the PFT by threaded knobs. The opening dimension LxH must be increased by 5 mm.

### Finishes

**AA** Matt silver anodised.

**M9016** Pre-lacquered in white similar to RAL 9016 (85-95% gloss)

**R9010S** Painted in white RAL 9010 semi-matt (60-70% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

### Specification Text

Supply and mounting of air return grille with fixed blades at 45° parallel to the largest side series **DMT-AR+SP+CM (S) M9016 dim.**

**LxH**, constructed from aluminium paint in white M9016 with opposed blades volume damper from zinc plated steel in black colour **SP**, invisible fixing by clips (**S**) and mounting frame **CM**. Manufacturer **MADEL**.

## Fixed blades return grilles with filter

### Technical data

#### DMT-FY

### Description

Air return grilles with fixed blades at 45°, constructed from aluminium, with incorporated filter (F1 fire rated according to the norm DIN 53438) By pressing on two semi-hidden levers, the grille can be easily removed from its mounting frame or plenum box, for washing or filter replacement in compliance with the regulations required for maintenance of HVAC installations. The FY system means so much an economy of time in installation like in the later maintenances, as well as an aesthetic evolution.

**DMT-FY** Grille with blades fixed at 45°, parallels to the longer side (size L) with filter G3 class according to the norm EN 779.

**EMT-FY** Grille with blades fixed at 45°, parallels to the shorter side (size H) with filter G3 class according to the norm EN 779.

### Accessories

**CM** Mounting frame from galvanised steel (delivered separately in 4 linear elements) The opening size LxH must be increased by 8 mm.

**PLRO** Connection plenum: see Accessories.

### Fixing

**(S)** Clips. For wall mounting. It requires CM mounting frame or PLRO plenum box.

**(O)** Hidden screw. For ceiling mounting. It requires mounting frame CM or plenum PLRO (supplement \*)

### Finishes

**AA** Matt silver anodised.

**M9016** Pre-lacquered in white similar to RAL 9016 (85-95% gloss)

**R9010S** Pre-lacquered in white RAL 9010 semi-matt (60-70% gloss)

**RAL....** Painted in other RAL colours : see INFO page.

### Specification Text

Supply and mounting of air return grille with fixed blades at 45° with filter G3 class included, with hinged removable core by pressing on two semi-hidden levers, series **DMT-FY+CM (S) M9016 dim. LxH**, constructed from aluminium paint in white M9016, invisible fixing by clips **(S)** and mounting frame **CM**. Manufacturer **MADEL**.

## Modular fixed blades return grilles

### Technical data

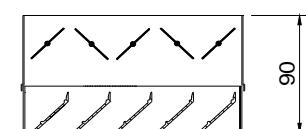

#### DMT-MOD

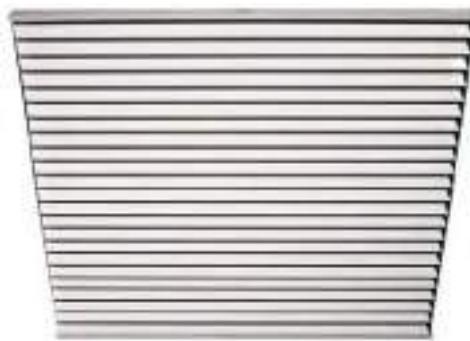

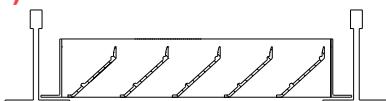

#### DMT-MOD-PFT

#### DMT-MOD+SP

1)

### Description

Air return grilles with fixed blades at 45° designed to replace a false ceiling plate. Constructed from aluminium.

**DMT-MOD** Grille with blades parallel to the largest side (L size)

**EMT-MOD** Grille with blades parallel to the shortest side (H size)

**...-MOD-PFT** Grille with filter type K/8 class EN 779 G3.

### Accessories

**SP** Opposed blades volume damper from zinc plated steel in black colour.

### Fixing

1) Suspended at the false ceiling. Replace a false ceiling plate.

### Finishes

**AA** Matt silver anodised.

**M9016** Pre-lacquered in white similar to RAL 9016 (85-95% gloss)

**R9010S** Painted in white RAL 9010 semi-matt (60-70% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

### Specification Text

Supply and mounting of air return grille with fixed blades at 45° parallel to the largest side series **DMT-AR-MOD+PFT M9016 dim. 595x595**, with filter box **PFT** and filter type K/8 efficiency EN 779 G3, designed to replace false ceiling tile, constructed from aluminium paint in white **M9016**. Manufacturer **MADEL**.

### Description

Air return grilles with fixed blades at 45°, with hinged removable core without tools, by pressing on the invisible PUSH fasteners. KLIN system allows for the easy access to the grille that conforms with the regulations required for maintenance of HVAC installations. Constructed from aluminium.

**DMT-KLIN** Air return grille with fixed blades.

### Accessories

**PFT** Filter type K/8 class EN 779 G3.

**PLK** Plenum box with an upper connection.

**...-R** Air flow damper in the spigot.

**.../L** Lateral connection.

**.../AIS/** Thermal insulation inside.

### Fixing

1) Support brackets to hang from the ceiling.

### Finishes

**M9016** Painted in white similar to RAL 9016 (85-95% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

### Specification Text

Supply and mounting of air return grille with fixed blades with hinged removable core without tools, by pressing on the invisible PUSH fasteners series **DMT-KLIN+PFT M9016** dim. **LxH**, with filter type K/8 efficiency EN 779 G3, constructed from aluminium paint in white **M9016**. Manufacturer **MADEL**.

## Egg-crate grilles

### Technical data

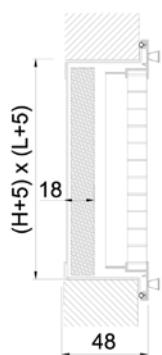

#### RMT-A

#### RMT-A+SP

#### RMT-A+PFT

### Description

Egg-crate grilles for air return. Constructed from aluminium.

**RMT-A** Egg-crate return grilles of 13x13 mm lattice core.

### Accessories

**SP** Opposed blades volume damper from zinc plated steel in black colour.

**PFT** Filter box constructed from galvanised steel with filter K/8 class EN 779 G3. The opening dimension LxH must be increased by 5 mm.

**CM** Mounting frame from galvanised steel (delivered separately in 4 linear elements) The opening dimension LxH must be increased by 8 mm.

**PLRO** Connection plenum : see Accessories.

### Fixing

**(S)** Clips. It requires CM mounting frame or PLRO plenum box.

**(O)** Hidden screw. It requires CM mounting frame or PLRO plenum box (supplement \*)

**(T)** Visible screws (supplement \*)

**1)** The filter box is fixed in place with screws or sidepieces. The grille is held to the PFT by threaded knobs. The opening dimension LxH must be increased by 5 mm.

### Finishes

**AA** Matt silver anodised.

**R9016S** Painted in white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted in white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

### Specification Text

Supply and mounting of egg-crate grille for air return series **RMT-A+SP+CM (S)** **AA** dim. **LxH**, constructed from aluminium and anodised in matt silver **AA** with opposed blades volume damper from electro-zinc steel in black colour **SP**, invisible fixing by clips (**S**) and mounting frame **CM**. Manufacturer **MADEL**.

## Modular egg-crate grilles

### Technical data

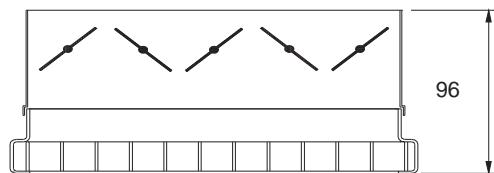

RMT-MOD

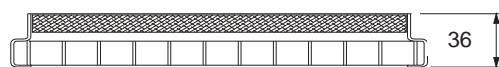

RMT-45-MOD

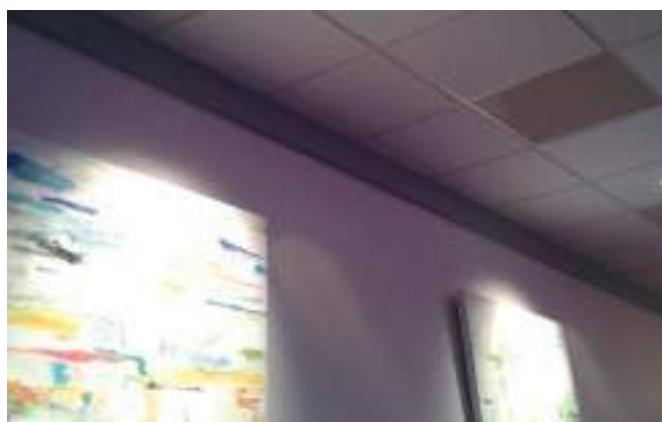

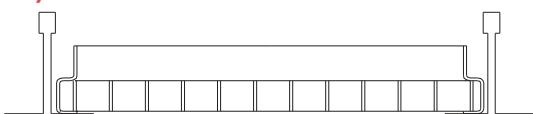

RMT-MOD+SP

RMT-MOD-PFT

1)

### Description

Egg-crate grilles for air return specially designed to replace false ceiling tile. Constructed from aluminium and galvanised steel.

**RMT-MOD** Square netting grille of 13x13 mm.

**RMT-45-MOD** Square netting grille at 45° of 13x13 mm.

**...-MOD-PFT** Grille with filter type K/8 efficiency EN 779 G3.

### Accessories

**SP** Opposed blades volume damper from zinc plated steel, in black colour. Not available for RMT-45.

### Fixing

1) Suspended at the false ceiling. Replace a false ceiling plate.

### Finishes

**AA** Matt silver anodised.

**R9016S** Painted in white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted in white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

### Specification Text

Supply and mounting of egg-crate grille for air return series **RMT-**

**MOD+PFT AA dim. 595x595**, with filter type K/8 efficiency EN 779 G3, designed to replace false ceiling tile, constructed from aluminium and anodised in matt silver **AA**. Manufacturer **MADEL**.

## External grilles - 25 mm pitch

### Technical data

#### DMT-X

#### DMT-X+PFT

### Description

External use grilles in aluminium with fixed blades, 25 mm pitch, for expel or air intake.

**DMT-X** Grille with blades parallels to the largest side (L size)

**EMT-X** Grille with blades parallels to the shortest side (H size)

### Accessories

**PFT** Filter box constructed from galvanised steel with filter K/8 class EN 779 G3. The opening size LxH must be increased by 5 mm.

**MLL** Galvanised mesh of 13x13 mm.

**CM** Mounting frame from galvanised steel (delivered separately in 4 linear elements) The opening size LxH must be increased by 8 mm.

### Fixing

**(S)** Clips. It requires mounting frame CM.

**(T)** Visible screws (supplement \*)

**(P)** Sidepieces to fix in place (supplement \*)

1) The filter box is fixed in place with screws or sidepieces. The grille is held to the PFT by threaded knobs. The opening dimension LxH must be increased by 5 mm.

### Finishes

**AA** Matt silver anodised.

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

## External grilles - 50 mm pitch

### Technical data

#### DXT

#### DXT+PFX

### Description

External use grilles in aluminium with fixed blades, 50 mm pitch, for expel or air intake.

**DXT** Grille with galvanised mesh and blades parallel to the largest side (L size)

**EXT** Grille with galvanised mesh and blades parallel to the shortest side (H size)

### Accessories

**PFX** Filter box constructed from galvanised steel with filter K/8 class EN 779 G3.

**CX** Mounting frame in galvanised steel. It includes sidepieces to fix in place.

### Fixing

(T) Visible screws. Mounting frame CX is recommended.

(P) Sidepieces to fix in place (supplement \*)

### Finishes

**NAT** Natural aluminium no anodised.

**AA** Matt silver anodised.

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

### Specification Text

Supply and mounting of external use grille with galvanised mesh and blades parallel to the largest side series **DXT+PFX (T) AA dim. LxH**, with filter box **PFX** and filter type K/8 efficiency EN 779 G3, constructed from aluminium and anodised in matt silver **AA**, visible fixing by screws **(T)**. Manufacturer **MADEL**.

## External grilles - 100 mm pitch

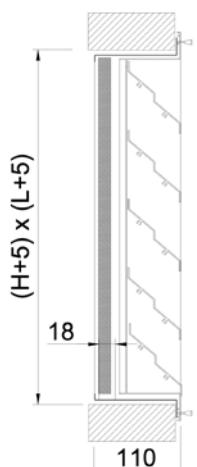

### Technical data

#### DXL

#### DXL+PFXL

### Description

External use grilles in aluminium with fixed blades, 100 mm pitch, for expel or air intake.

**DXL** Grille with galvanised mesh and blades parallel to the largest side (L size)

**EXL** Grille with galvanised mesh and blades parallel to the shortest side (H size)

### Accessories

**PFXL** Filter box constructed from galvanised steel with filter K/8 class EN 779 G3.

**CXL** Mounting frame in galvanised steel. It includes sidepieces.

### Fixing

(T) Visible screws. Mounting frame CXL is recommended.

(P) Sidepieces to fix in place (supplement \*)

### Finishes (painted available to 2000x1200)

**NAT** Natural aluminium no anodised.

**AA** Matt silver anodised.

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

### Specification Text

Supply and mounting of external use grille with galvanised mesh and blades parallel to the largest side series **DXL+PFXL (T) NAT**

**dim.** LxH, with filter box and filter type K/8 efficiency EN 779 G3, constructed from natural finish aluminium, visible fixing by screws. Manufacturer **MADEL**.

## Pressed grilles

### Technical data

#### SCV

### Description

Printed grilles in galvanised steel for extraction or air supply.

**SCV** Grille with blades in One-Way, parallels to the largest side (L size)  
**CCV** SC models incorporating volume damper with external key.

### Accessories

**JT** Wind of 10 m of autoadhesive seal.

### Fixing

(T) Visible screws.

### Finishes

**R9006M** Painted aluminium colour RAL 9006 matt (20-30% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**S/PT** Without finish.

### Specification Text

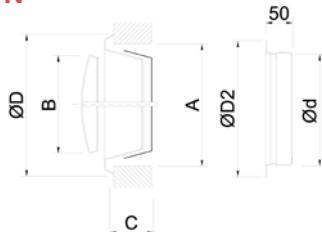

Supply and mounting of printed grille for extraction and air supply with blades in One-Way series **SCV R9016S dim. LxH**, constructed from galvanised steel paint in white **R9016S**, visible fixing by screws (T). Manufacturer **MADEL**.

### Description

Ventilation valves with adjustable core for extract or air supply.

**BWC-N** Extract valve in galvanised steel, including mounting neck.

**BWC-S** Air supply valve in galvanised steel, including mounting neck.

**BWC-C** Extract and supply valve in white polypropylene, including mounting neck.

### Fixing

- Clips and mounting neck.

### Finishes

**R9010** Painted in white RAL 9010.

### Specification Text

Supply and mounting of circular valve with adjustable core for extract or air supply with mounting neck series **BWC-N R9010 dim.**

**100** constructed from galvanised steel paint in white **R9010**, invisible fixing by clips and mounting neck. Manufacturer **MADEL**.

## Radial **diffusers**

Timeless classic design

MOD models to replace a false ceiling tile

Hinged removable core without tools KLIN models

DSO and DIMO diffusers, design with high capacity for integration

Supply and return in a single unit with diffusers DRIM

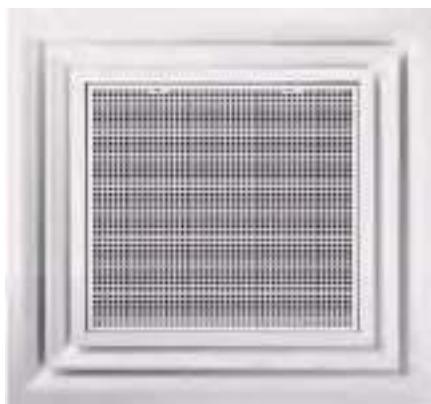

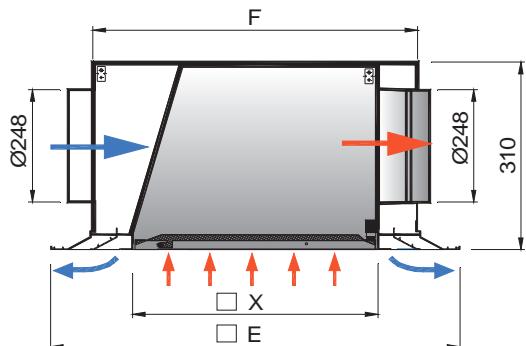

## INDEX

- 59 **DRIM** supply-return modular diffusers
- 60 **DCN** fixed cones diffusers
- 62 **DSO** central disc diffusers
- 63 **DBQ** four-way diffusers
- 65 **DBQ-MOD** four-way diffusers
- 66 **DIMO** decorative core modular diffusers

## Supply-return modular diffusers

### DRIM...-R

### Description

Modular diffusers to be used from 2,6 up to 4 metres high, with hinged removable core without tools. by PUSH fasteners. KLIN system allows for the easy access to the diffuser for maintenance. Constructed from aluminium and galvanised steel.

**DRIM** Four-Way diffuser for air supply with return core and connection plenum box incorporated.

### Accessories

**...-RR** Plenum box with air flow damper in the spigot, as much of supply as of return.

**PFT** Filter K/8 class EN 779 G3 in the air return.

**.../AIS/** Thermal insulation inside.

### Fixing

1) Suspended at the false ceiling.

### Finishes

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

### Specification Text

Supply and mounting of Four-Way diffuser for air supply with return core and lateral circular connection plenum box incorporated series **DRIM R9016S dim. 2x600** constructed from aluminium and galvanised steel, paint in white RAL 9016 (60-70% gloss)

### Description

Circular diffusers in aluminium to be used in premises from 2,6 up to 4 metres high.

**DCN** Fixed cones circular diffuser.

**DCN-MOD** Diffuser specially designed for modular ceilings.

.../T15/ False ceiling panel 15 mm profile with angled borders.

.../T24/ False ceiling panel 24 mm profile with angled borders.

### Accessories

**R3E** Flap damper, manually operated.

**PMN** Crossbar suitable for mounting a false ceiling with rectangular duct.

**PFLEX** Neck-crossbar suitable for mounting in false ceiling with flexible duct.

**PLDN** Plenum box with a lateral circular.

...-R Air flow damper in the spigot.

.../S/ Upper connection.

.../AIS/ Thermal insulation inside.

### Fixing

1) Connection into the crossbar or to the plenum box by means of central screw.

2) MOD Suspended at the false ceiling, replacing a ceiling plate.

### Finishes

**AA** Matt silver anodised.

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

### Description

Four-Way diffusers in aluminium to be used in premises from 2,6 up to 4 metres high.

**DBQ** Four-Way square diffuser with removable core.

### Accessories

**R3Q** Flap damper, manually operated. Compatible with (O) fixing.

**SPQ** Opposed blades volume damper from black electro-zinc steel. Compatible with (D) fixing.

**PMQ** Crossbar suitable for mounting in a false ceiling with rectangular duct.

**CQ** Mounting frame from galvanised steel (delivered separately in 4 linear elements)

**PLDQ** Plenum box with a lateral circular. Compatible with (P) fixing.

...-R Air flow damper in the spigot.

.../S/ Upper connection.

.../AIS/ Thermal insulation inside.

**ADPQ** Adapter to circular connection. Riveted directly to the diffuser. Compatible with (D) fixing.

...-R Air flow damper in the spigot.

.../L/ Lateral connection.

.../AIS/ Thermal insulation inside.

### Fixing

**(D)** Direct fixing into a circular metallic duct.

**(P)** Connection into the crossbar or to the plenum box by means of central screw.

**(O)** Hidden screws (supplement \*)

### Finishes

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**R9006M** Painted aluminium colour RAL 9006 matt (20-30% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

### Specification Text

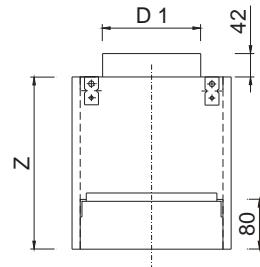

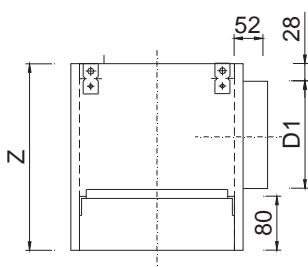

Supply and mounting of four-way square diffuser with removable core series **DBQ+PLDQ-R R9016S 150x150**, constructed from aluminium paint in white RAL 9016 (60-70% gloss) with lateral circular connection plenum box and air flow damper in the spigot. Manufacturer **MADEL**.

#### DBQ+ADPQ

### Description

Four-Way diffusers in aluminium to be used in premises from 2,6 up to 4 metres high, specially designed to be mounted in modular ceilings.

**DBQ-MOD** Four-Way square diffuser with removable core.

.../T15/ False ceiling panel 15 mm profile with angled borders.

.../T24/ False ceiling panel 24 mm profile with angled borders.

### Accessories

**SPQ** Opposed blades volume damper from black electro-zinc steel.

**R3Q** Flap damper, manually operated.

**ADPQ** Adapter to circular connection. Riveted to the diffuser.

...-R Air flow damper in the spigot.

.../L/ Lateral connection: see page DBQ series.

.../AIS/ Thermal insulation inside.

### Fixing

1) Suspended at the false ceiling. To replace a false ceiling plate.

### Finishes

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

### Specification Text

Supply and mounting of fixed cones square diffuser series **DBQ-MOD R9016S** dim. LxH, designed to replace a false ceiling plate.

Constructed from aluminium paint in white RAL 9016 (60-70% gloss)

Manufacturer **MADEL**.

### Description

Swirl diffuser with adjustable vanes to be used in premises from 2,6 up to 4 m high, with hinged removable core without tools, by pressing on the invisible PUSH fasteners. KLIN system allows for the easy access to the diffuser that conforms with the regulations required for maintenance of HVAC systems. Constructed from galvanised steel and black ABS plastic vanes.

**AXO-S-KLIN** Diffuser with vanes in radial arrangement.

...-SY Vanes in radial inclined arrangement.

...-SX Vanes in square radial arrangement.

.../SR/ Reduced supply area.

### Accessories

**PLK** Plenum with an upper connection.

...-R Air flow damper in the spigot.

.../L/ Lateral connection.

.../AIS/ Thermal insulation inside.

### Fixing

1) Suspended at the false ceiling.

### Finishes

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

.../AB/ ABS plastic vanes in white.

### Description

Rectangular swirl diffusers with individually adjustable blades to be used from 2,6 up to 4 metres high. Constructed from galvanised steel and black ABS plastic vanes.

**AXO-R** Rectangular diffuser with vanes in radial arrangement.

.../GC/ Vanes in circular radial arrangement.

.../GR/ Vanes in rectangular radial arrangement.

### Accessories

**PMXO-300** Crossbar suitable for mounting in false ceiling with rectangular duct.

**PLAR/L** Plenum box with a lateral connection.

...-R Air flow damper in the spigot.

.../S/ Upper connection.

.../AIS/ Thermal insulation inside.

### Fixing

1) Connection into the crossbar or to the plenum box by means of central screw.

### Finishes

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

.../AB/ ABS plastic vanes in white.

### Specification Text

Supply and mounting of rectangular swirl diffuser with individually adjustable radial vanes series **AXO-R/GC300/+PLAR R9016S dim.**

**600X300** constructed from galvanised steel paint in white R9016S (60-70% gloss) and black ABS plastic vanes. With lateral circular connection plenum box. Manufacturer **MADEL**.

### Technical data

DFZ-S4

DFZ-R

### Description

Square perforated face diffusers to be used in premises from 2,6 up to 4 m high, with hinged removable core without tools, by pressing on the invisible PUSH fasteners. KLIN system allows for the easy access to the diffuser that conform with the required regulations for maintenance of HVAC installations. Constructed from galvanised steel.

**DFZ-S4** Four-Way diffuser.

**DFZ-R** Four-Way return diffuser.

### Accessories

**PLK** Upper connection diffuser.

**...-R** Air flow damper in the spigot.

**.../L/** Lateral connection.

**.../AIS/** Thermal insulation inside.

**PFT** K/8 class EN 779 G3 filter for DFZ-R.

### Fixing

1) Suspended at the false ceiling.

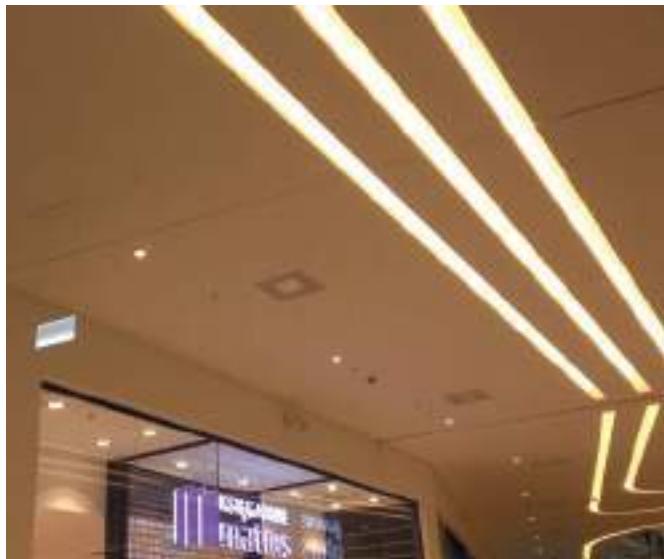

### Finishes

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

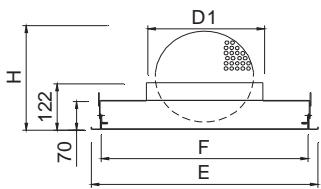

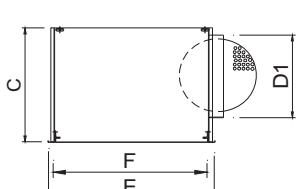

### Specification Text

Supply and mounting of four-way square perforated face diffuser with hinged removable core without tools by pressing on the invisible PUSH fasteners, series **DFZ-S4+PLK-R/L/ R9016S dim. mm** constructed from galvanised steel paint in white RAL 9016 (60-70% gloss) with lateral circular connection plenum box and air flow damper in the spigot. Manufacturer **MADEL**.

### Description

Adjustable cones diffusers to be used in different premises from 2,6 metres high. Constructed from aluminium.

**DCG** Manually regulable diffuser.

**DCG-ACTIF** hermo-adjustable diffuser independently. To be used in different premises from 4 metres high.

**DCG-MOD...** Diffusers specially designed for modular ceilings.

.../T15/ False ceiling panel 15 mm profile with angled borders.

.../T24/ False ceiling panel 24 mm profile with angled borders.

### Accessories

**R3G** Flap damper, manually operated.

**R2G** Flap damper, manually operated. Fixing screw.

**PMG** Crossbar suitable for mounting in false ceiling with rectangular duct.

**PLDG** Plenum box with a lateral connection.

.../R Air flow damper in the spigot.

.../S/ Upper connection.

.../AIS/ Thermal insulation inside.

### Fixing

1) Connection into a circular metallic duct.

(P) Connection into the crossbar or plenum box by central screw.

Unsuitable for DCG-ACTIF.

(O) Hidden screws for false ceiling mounting with flexible duct.

Unsuitable for DCG-ACTIF.

### Finishes

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**R9006M** Painted aluminum color RAL 9006 matt (20-30% gloss)

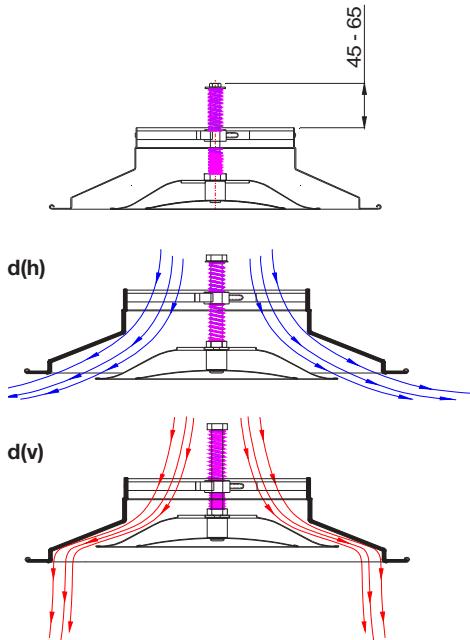

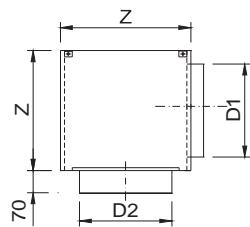

**RAL...** Painted in other RAL colours : see INFO page.

### Specification Text

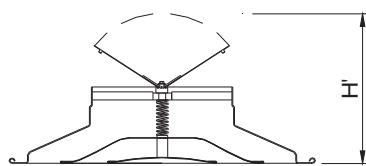

Supply and mounting of circular diffuser with adjustable blades series **DCG+PLDG R9016S dim. mm** constructed from aluminium paint in white RAL 9016 (60-70% gloss) with lateral circular connection plenum box made from galvanized steel. Manufacturer **MADEL**.

### Description

Long throw mini jet nozzle for air diffusion. Nozzles constructed from aluminium.

**KIN** Non-orientable mini jet nozzle suitable for wall or ceiling mounting.

### Fixing

1) Neck installation by means of screw and jet nozzle pressed into the neck.

### Finishes

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

### Specification Text

Supply and mounting of non-orientable long throw mini jet nozzle series **KIN R9016S diam. 80**, constructed from aluminium and paint in white RAL 9010 (60-70% gloss) or another defined by the D.F., pressing fixation and neck mounting included. Manufacturer **MADEL**.

### Description

Long throw jet nozzles to provide air diffusion into large spaces. Constructed from aluminium and seal of rotation from immutable material.

**KAM-W** Manually adjustable jet nozzle, suitable for wall or ceiling mounting. Installation by means of hidden screws behind the ring.

**KAM-D** Manually adjustable jet nozzle, suitable for mounting into a visible duct. Connection into a circular metallic duct.

**KAM-T** Manually adjustable jet nozzle, suitable for wall or ceiling mounting. Installation by means of visible screws.

**...-M5-24 / 230** Jet nozzle with angle of impulsion regulable by means of a servomotor On / Off.

**...-ACTIF** Thermo-adjustable jet nozzle independently. Time from 30° to 60°: 30 min.

### Accessories

**IEH** Pressed collar saddle for KAM-D mounting into a visible circular duct.

### Finishes

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

### Description

Long throw multi-jet nozzle, giving complete flexibility of direction, suitable for wall mounting. Nozzles constructed from aluminium and panel from galvanised steel. Seal of rotation from immutable material.

**KOO** Manually adjustable multi-jet nozzle.

### Accessories

**CM** Mounting frame from galvanised steel (delivered separately in 4 linear elements)

**PLRO** Connection plenum: see page Accessories.

**IEK** Pressed collar saddle for mounting into a visible circular duct. (T) fixing required.

### Fixing

(S) Clips. It requires mounting frame CM.

(T) Visible screws. Mandatory for ceiling mounting.

### Finishes

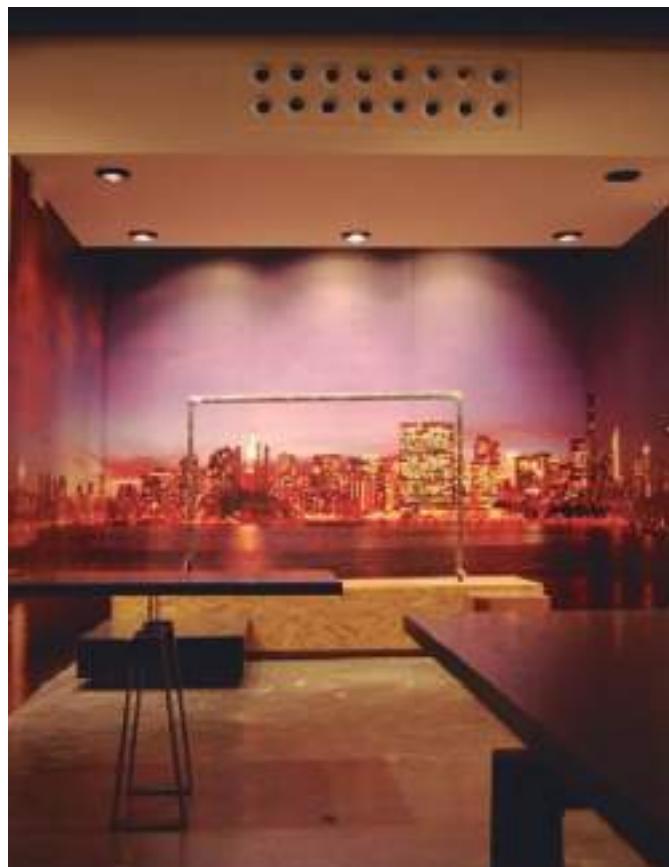

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

### Description

Panel of long throw multi-jet nozzle, giving complete flexibility of direction suitable for wall mounting. Nozzles constructed from aluminium and panel from galvanised steel. Seal of rotation from immutable material.

**KAP** Manually adjustable multi-jet nozzle.

### Accessories

**IBK** Pressed collar saddle for mounting into a visible circular duct.

### Fixing

(T) Visible screws.

### Finishes

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**R9006M** Painted aluminum color RAL 9006 matt (20-30% gloss)

**RAL...** Painted in other RAL colours : see INFO pag.

### Specification Text

Supply and mounting of long throw multi-jet nozzle manually adjustable in all directions series **KAP (T) R9016S dim. LxH** constructed from aluminium and galvanised steel, paint in white RAL 9010 (60-70% gloss) or another defined by the D.F., fixing by visible screws. Manufacturer **MADEL**.

### Description

KOBE mid-long throw linear jet nozzles have been designed to combine aesthetics with technical performance. Its mounting is carried out both on the wall and on the ceiling. With various slot sizes available and an adjustable supply angle of  $\pm 30^\circ$ , KOBE nozzles are suitable for all types of architectures. KOBE jet nozzles are ideal for installation in large spaces such as shopping centers, airports, stations, sports halls, etc. Due to their performance and linear aesthetics, along with airflow control, KOBE jet nozzles are also suitable for use in residential and commercial facilities. Diffusers made of aluminum with steel shafts and fastening elements. Length from 300 to 2000mm

Nozzle with a maximum length of 1000 mm. For longer lengths the diffuser incorporates two nozzles of equal size.

**KOBE** Mid-long throw linear jet nozzle.

### Accessories

**PLKB** Plenum box with a lateral circular connection. It incorporates supports for wall and ceiling suspension. Made in galvanised steel.

**...-R** Plenum box with a flow damper in the spigot (available only for lateral connection)

**.../S/** Plenum box with an upper elliptical connection.

**.../AIS/** Thermally insulated plenum box with foam.

**IOK** Pressed collar saddle for mounting into a visible circular duct. (PM) fixing required.

### Fixing systems

**(D)** Nozzle with brackets for ceiling or wall mounting by threaded rod or wire.

**(PM)** Set of crossbars for ceiling or wall installation of the nozzle. The nozzle is screwed onto the crossbars.

**(PL)** Plenum box with circular connection for installation of the nozzle on the ceiling or on the wall. The nozzle is screwed onto the plenum rails.

### Finishes

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**R9005M** Painted black RAL 9005 matt (20-30% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

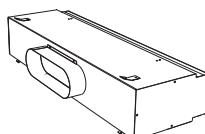

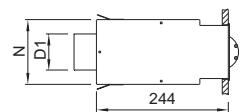

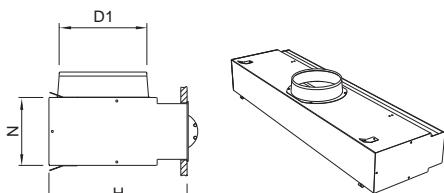

### Specification text

Supply and mounting of medium-long throw adjustable linear nozzle

**KOBE+PLKB-R R9016S 20x2000** made of aluminum and white lacquered finish RAL 9010 (60-70% gloss) or another to be defined by the D.F. With lateral circular connection plenum with flow regulator in the neck and elements necessary for assembly. Brand **MADEL**.

#### PLIN/S/

### Description

Medium and High throw hidden linear jet nozzle LINKIN has been designed to combine estetical aspect and technical benefits. Its mounting can be done on false ceiling as well as on wall, hiding the frame with mastic, leaving visible only the linear diffuser slot. The internal deflector is immovable and doesn't allow orientation. To be installed at a height between 2.6 and 6 m. Length from 500 to 1000mm. Allows the formation of continuous lines by joining diffuser sections. Diffusers made of aluminum, axes and fastening elements made of steel.

**LINKIN** Mid-long throw hidden linear jet nozzle.

### Accessories

**PLIN/L/** Plenum box with a lateral circular connection. It incorporates supports for wall and ceiling suspension. Made in galvanised steel.  
**.../S/** Plenum box with an upper elliptical connection.  
**...-R** Plenum box with a flow damper in the spigot (available only for lateral connection)  
**.../AIS/** Thermally insulated plenum box with foam.

### Fixing systems

**(D)** Brackets for ceiling or wall mounting by threaded rod or wire.  
**(L)** Brackets for false ceiling installation.

### Finishes

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)  
**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)  
**R9005M** Painted black RAL 9005 matt (20-30% gloss)  
**RAL...** Painted in other RAL colours : see INFO page.

### Specification text

Supply and mounting of medium-long throw hidden linear nozzle **LINKIN+PLIN/L-R R9016S 20x2000** made of aluminum and white lacquered finish RAL 9010 (60-70% gloss) or another to be defined by the D.F. With lateral circular connection plenum with flow regulator in the neck and elements necessary for assembly. Brand **MADEL**.

## Linear diffusers

Continuous design

Diffusers suitable to create continuous lines

Plenum boxes with quick mounting clips

KIS diffuser, attractive design of Lievore,  
Altherr & Molina

## INDEX

**120 LSD** sectored slot linear diffusers

**122 LNG** linear slot diffusers

**142 KIS** micro-jet nozzles linear diffusers

**126 LSD&LNG-MOD** modular linear diffusers

**127 LRT LNG** linear diffusers for air return

**129 LESS** Supply-return linear slot diffusers

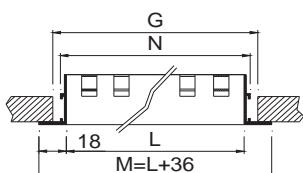

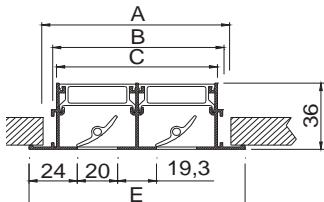

**131 LOF&LAIF** fixed linear diffusers with minimized frame

**133 LOOK** hidden linear diffusers

**136 LOOK-CURVED** hidden curved linear diffusers

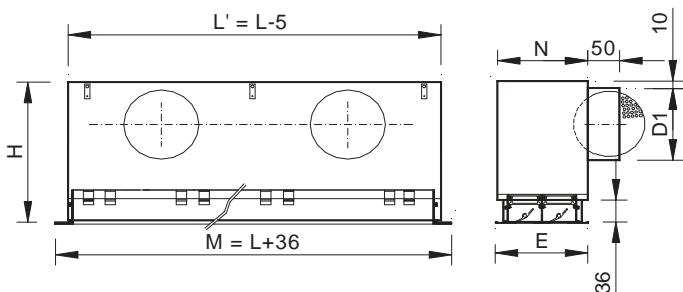

## Sected slot linear diffusers

### Description

Linear slot diffuser with sectored adjustable vanes to be used from 2,6 up to 4 m high. Diffuser constructed from aluminium and deflection vanes from PVC in black colour.

**LSD** Diffuser with sectored vanes at 100 mm.

...-AR Diffuser with end borders included, for lengths  $\leq 2$  m.

...-ARI Diffuser with an end border on the left side, required to form lines  $> 2$  m.

...-ARD Diffuser with an end border on the right side, required to form lines  $> 2$  m.

...-INT Diffuser without end borders, required to form lines  $> 4$  m.  
(in case of needing sections of equal length, it must be indicated)

### Accessories

**PLSD** Plenum box with lateral connection.

...-R Air flow damper in the spigot.

.../AIS/ Thermal insulation inside.

**A90/LSD** Inactive angle at 90°.

### Fixing

**(D)** Brackets for suspension to the ceiling of the diffuser without plenum box.

**(PL)** Brackets for suspension from the ceiling of the diffuser screwed to the plenum box.

**(PM)** Crossbars for installation of the diffuser without plenum box in false ceiling (supplement \*)

### Finishes

**AA** Matt silver anodised.

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

.../AB/ ABS plastic vanes in white (supplement \*)

### Specification Text

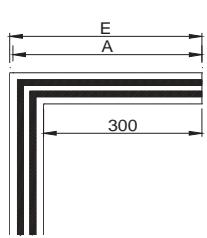

Supply and mounting of linear slot diffuser with sectored adjustable vanes at 100 mm **LSD-AR+PLSD-R AA 1x558** constructed from aluminium and anodised in matt silver **AA**. With lateral circular connection plenum box and air flow damper in the spigot **PLSD-R**. Manufacturer **MADEL**.

### Description

Linear slot diffuser with directional vanes to be used from 2,6 up to 4 metres high. Diffuser constructed from aluminium and vanes also from aluminium in black colour.

**LNG-AR** Diffuser with end borders included. Suitable for lengths  $\leq 2$  m.

**...-ARI** Diffuser with an end border on the left side, required to form lines  $> 2$  m.

**...-ARD** Diffuser with an end border on the right side, required to form lines  $> 2$  m.

**...-INT** Diffuser without end borders, required to form lines  $> 4$  m. (in case of needing sections of equal length, it must be indicated)

### Accessories

**PLSD** Plenum box with lateral connection.

**...-R** Air flow damper in the spigot.

**.../AIS/** Thermal insulation inside.

**A90/LNG** Inactive angle at 90°.

### Fixing

**(D)** Brackets for suspension to the ceiling of the diffuser without plenum box.

**(PL)** Brackets for suspension from the ceiling of the diffuser screwed to the plenum box.

**(PM)** Crossbars for installation of the diffuser without plenum box in false ceiling (supplement \*)

### Finishes

**AA** Matt silver anodised.

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

**.../AB/** Vanes in white (supplement \*)

### Description

Micro-jet nozzles linear diffusers, giving complete flexibility of direction, suitable for wall or ceiling mounting. Diffuser constructed from aluminium and nozzles from PP.

**KIS-AR** Diffuser with end borders included. Suitable for lengths  $\leq 2$  m.

**...-ARI** Diffuser with an end border on the left side, required to form lines  $> 2$  m.

**...-ARD** Diffuser with an end border on the right side, required to form lines  $> 2$  m.

**...-INT** Diffuser without end borders, required to form lines  $> 4$  m.  
(in case of needing sections of equal length, it must be indicated)

### Accessories

**PLSD** Plenum box with lateral connection.

**...-R** Air flow damper in the spigot.

**.../AIS/** Thermal insulation inside.

### Fixing

**(D)** Brackets for suspension to the ceiling of the diffuser without plenum box.

**(PL)** Brackets for suspension from the ceiling of the diffuser screwed to the plenum box.

**(PM)** Crossbars for installation of the diffuser without plenum box in false ceiling (supplement \*)

### Finishes (Indicate nozzle color: white or black)

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**R9006M** Painted aluminium colour RAL 9006 matt (20-30% gloss)

**R9005M** Painted in black RAL 9005 matt (20-30% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

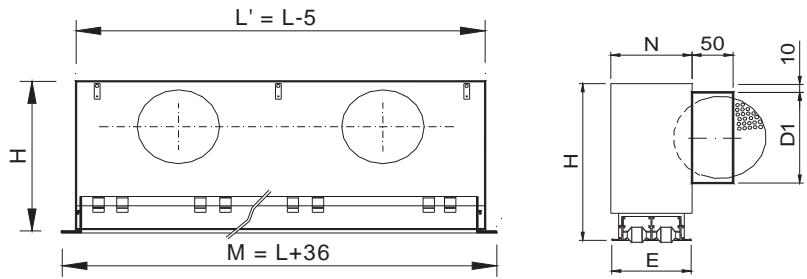

### Specification Text

Supply and mounting of linear diffuser with micro-jet nozzles adjustable in all directions series **KIS-AR+PLSD-R R9016S 1x1000** constructed from aluminium paint in white RAL 9016 (60-70% gloss) with lateral connection plenum box and air flow damper in the spigot. Manufacturer **MADEL**.

## Modular linear diffusers

### Technical data

### Description

Linear diffusers LSD & LNG specially designed to be mounted in modular ceilings.

**LSD-MOD** Modular LSD linear diffuser.

**LNG-MOD** Modular LNG linear diffuser.

### Accessories

**PLSD** Plenum box with lateral connection.

...-R Air flow damper in the spigot.

.../AIS/ Thermal insulation inside.

### Fixing

(D) Support brackets to hang from the ceiling.

### Finishes

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

.../AB/ Vanes in white (supplement \*)

### Specification Text

Supply and mounting of linear slot diffuser with sectored vanes

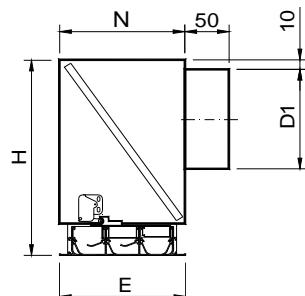

**LNG-MOD+PLSD-R R9010 1200x600** constructed from aluminium and painted white in RAL 9010 (60-70% gloss) with lateral circular plenum box and air flow damper in the spigot. Manufacturer **MADEL**.

### Description

The linear diffusers of the LESS series have been designed to combine aesthetics and technical performance. It can be installed in a false ceiling or suspended from the ceiling. These diffusers allow the supply and return of air on the same unit, contributing to better architectural aesthetics and easy and quick installation, with a distribution of the diffuser of 60% supply and 40% return. LESS diffusers are suitable for CAV and VAV installations. These diffusers can be used from 2.6 up to 4 meters high and with a temperature differential up to 12° C. By adjusting the blades, you obtain a horizontal distribution of the air in one direction or another or in vertical projection without modifying the air volume. Diffusers accessible from the front without tools, by means of invisible PUSH system to access the return filter from aluminium and deflection vanes from aluminium in black colour. Plenum box built in galvanized steel.

**LESS** Linear diffuser for air supply and air return with side connection plenum and filter (K / 8 class EN 779 G3) incorporated.

**...-MOD** Modular linear diffuser. Specially designed to replace a false ceiling tile.

### Accessories

**.../AIS/** Plenum box with thermal insulation inside.

### Fixing

**(D)** Support brackets to hang from the ceiling.

### Finishes

**AA** Matt silver anodised (not available for MOD version)

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**R9016B** Painted white RAL 9016 glossy (85-95% gloss)

**RAL...** Painted in other RAL colours.

### Specification text

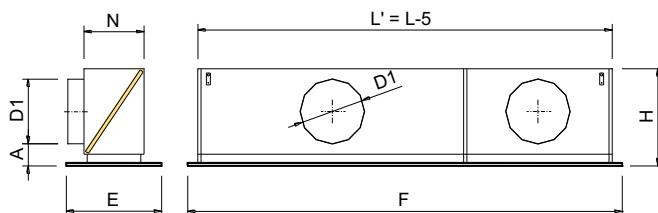

Supply and installation of linear diffuser for supply air return with side connection plenum and incorporated filter (K/8 class EN 779 G3), accessible from the front without tools, by means of invisible PUSH system, **LESS R9016S 3x1000**, series, made of aluminum and plenum galvanized steel; painted white color RAL 9016 (60-70% gloss) **MADEL** brand.

## Fixed linear slot diffusers with minimized frame

### Technical data

### Description

Fixed linear slot diffuser to be used from 2,6 up to 4 m high. Fixed slots for air supply with ceiling effect in 1-way or 2-way depending on the model. Diffuser constructed from aluminium.

**LOF-AR** Diffuser for air supply in 1-way, end borders included.

Suitable for lengths  $\leq 2$  m.

**LAIF-AR** Diffuser for air supply in 2-way, end borders included.

Suitable for lengths  $\leq 2$  m.

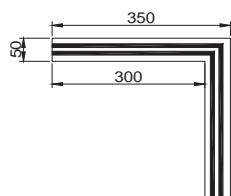

**...-ARI** Diffuser with an end border on the left side, required to form lines  $> 2$  m.

**...-ARD** Diffuser with an end border on the right side, required to form lines  $> 2$  m.

**...-INT** Diffuser without end borders, required to form lines  $> 4$  m.  
(in case of needing sections of equal length, it must be indicated)

### Description

Linear slot diffuser with a directional vane to be used from 2,6 up to 4 metres high. Diffusers for ceiling mounting, hiding the frame with filler and leaving visible only the slot. Diffuser constructed from aluminium and vane from galvanised steel.

**LOOK-CM** Diffuser with large frame.

**LOOK-SM** Diffuser with short frame.

**...-AR** Diffuser suitable for lengths  $\leq 2$  m.

**...-ARI / ARD** Diffuser with an end border on the left or right side, required to form lines  $> 2$  m.

**...-INT** Diffuser without end borders, requires to form lines  $> 4$  m. (in case of needing sections of equal length, it must be indicated)

### Accessories

**PLOK-CM** Plenum box with lateral connection for LOOK-CM.

**PLOK-SM** Plenum box with lateral connection for LOOK-SM. Plenum box always riveted to the diffuser.

**...-R** Air flow damper in the spigot.

**.../AIS/** Thermal insulation inside.

**A90/LOOK** Inactive angle at 90°.

### Fixing

**(D)** Support brackets to hang the diffuser LOOK-... from the ceiling or the diffuser riveted to the plenum box LOOK-...+PLOK-...

**(PM)** Set of crossbars for installation of LOOK-CM in the false ceiling or for mounting into a plenum box PLOK-CM.

**(L)** Support brackets to hang the diffuser LOOK-SM from the ceiling or the diffuser riveted to the plenum LOOK-SM+PLOK-SM.

### Finishes

**R9005M** Painted in black RAL 9005 matt (20-30% gloss)

**R9016S** Painted white RAL 9016 semi-matt (60-70% gloss)

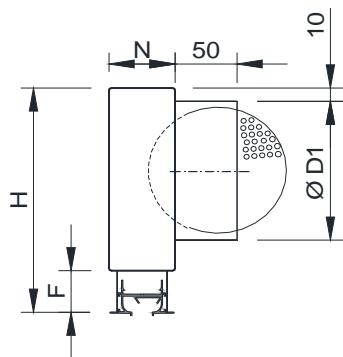

**R9010S** Painted white RAL 9010 semi-matt (60-70% gloss)

**RAL...** Painted in other RAL colours : see INFO page.

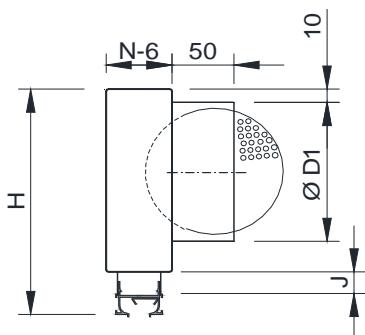

### Specification Text

Supply and mounting of hidden linear slot diffuser with directional vane, series **LOOK-CM-AR+PLOK-CM-R R9005M 20x1000 (D)** constructed from aluminium and steel, paint in black RAL 9005 matt (20-30% gloss) with lateral circular connection plenum box and air flow damper in the spigot. Manufacturer **MADEL**.

## LOOK-CM (PM)

1) Remove deflector    2) Adjust Crossbar

3) Put deflector

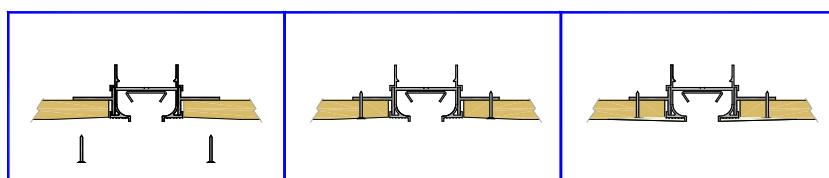

4) Protect with anti-cracks tape and cover with filler the frame.

## LOOK-SM (L)

1) Adjust and screw L

R9010S Painted white RAL 9010 semi-matt (60-70% gloss)

RAL... Painted other RAL colours.

### Description

Concealed frame curved linear diffusers designed to combine aesthetics with technical performance. Its assembly is carried out suspended from the false ceiling, hiding the frame with filler and leaving only the slot visible.

Suitable for both supply and return.

Minimum diameters of 2500 mm.

Flow variation of 60% maintaining the stability of the air jet.

Suitable for heights from 2.6 to 4 meters and with a temperature differential of up to 12° C.

**LOOK-CURVED** Curved linear diffuser with short frame and brackets for suspended ceiling. Factory adjustable deflector for outward, inward or vertical discharge.

...-AR Diffuser with end angles at both ends for arc length  $\leq 2m..$

...-ARD Diffuser with an end angle on the right side, to form curves with an arc length  $> 2m..$

...-ARI Diffuser with an end angle on the left side and connecting plates on the right side, to form curves with arc length  $> 2m..$

...-IND Curved diffuser without finishing angles and with connecting plates on the right side, to form arch lengths greater than 4m.

...-INI Curved diffuser without finishing angles and with connecting plates on the left side, to form arch lengths greater than 4m.

### Accessories

**PLOK-CURVED** Plenum box with connection to circular duct. Diffuser attached to plenum box with screws.

...-/AIS/ Thermal insulation inside.

...-I Plenum box with connection on the concave side (inside)

...-O Plenum box with connection on the convex side (external)

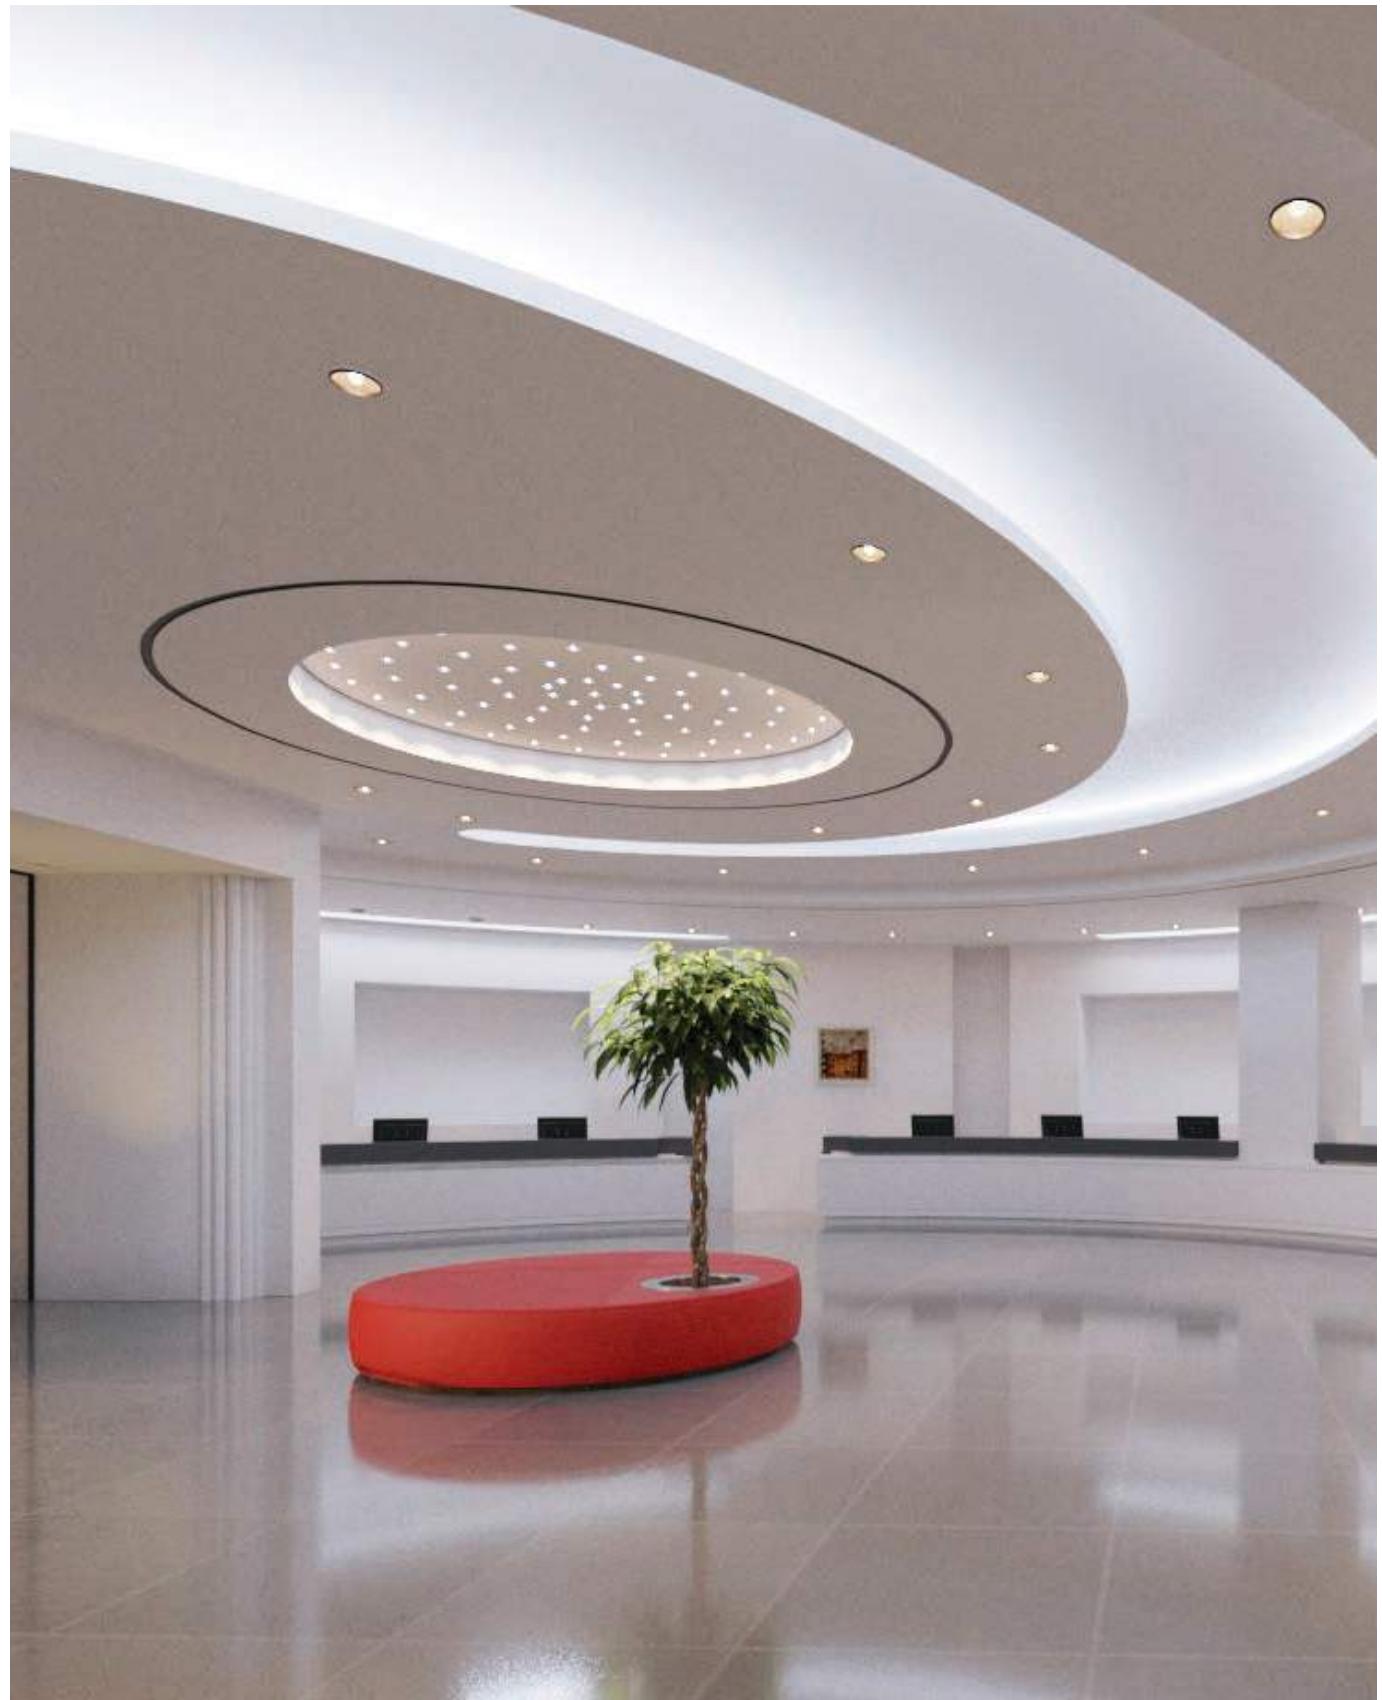

...-DR Plenum position on the right side of the diffuser.

...-IZ Plenum position on the left side of the diffuser.

...-C/L1 Remote plenum position L1 from the left side.

### Fixation

1) Suspension brackets in false ceiling for LOOK-CURVED with and without plenum box. The plenum box incorporates some pins for suspension by means of rods to the ceiling.

## Floor **diffusers**

Quality diffusion and proven resistance

Floor diffusers with dust collector for an easy maintenance

Floor grilles tested and classified

## INDEX

**139 TAU** aluminium floor diffusers

**140 LMT-SHD** linear floor grilles classified L15

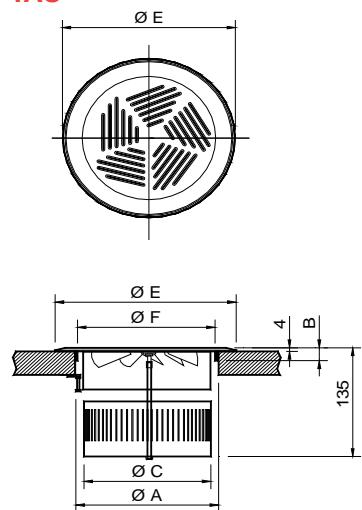

**141 LMT-S** linear floor grilles classified H1.5

## Aluminium floor diffusers

<b>200</b>	200	240	190	182	19

### Description

Circular floor diffuser with sliding volume damper and dust collector. Designed for mounting either in the floor or under seat. Diffuser made from aluminium.

**TAU** Floor swirl diffuser made from aluminium for creating a turbulent vertical discharge, mixing the room air.

### Fixing

1) Fixing by screws supplied with the diffuser.

### Finishes

1) Natural aluminium.

**RAL...** Painted RAL colors, for non-passable areas: Consult.

### Specification Text

Supply and mounting of floor circular swirl diffuser with sliding volume damper and dust collector series **TAU dim. 150** constructed from natural aluminium. Manufacturer **MADEL**.

## Linear floor grilles classified L15

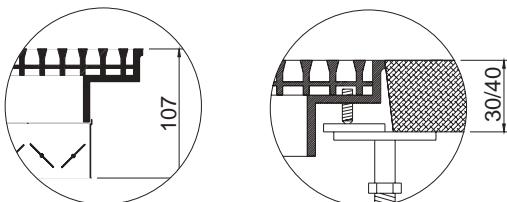

### Technical data

#### LMT-SHD

#### LMT-SHD+SP-HD

1)

### Description

Aluminium heavy-duty floor grilles with fixed bars for supply or air return. Suitable for mounting in raised access floors on any applications where heavy foot or equipment traffic is to be experienced.

L15 classification (installation in areas with traffic of light vehicles, excluded the forklift trucks, according to test carried out by a credited independent laboratory, in conformity with the standard EN 1253-2).

**LMT-SHD** Linear floor grille with fixed bars parallels to the largest side (L size)

### Accessories

**SP-HD** Opposed blades volume damper from electro-zinc steel, in black colour.

### Fixing

1) Adaptable to different floor thickness forwards four screws frontally accessible.

### Finishes

1) Shadowline – finished finish.

### Specification Text

Supply and mounting of linear floor grille with fixed bars parallels to the largest side series **LMT-SHD dim. LxH**, constructed from aluminium and shadowline – finished finish. L15 classification in conformity with the standard EN 1253-2. Manufacturer **MADEL**.

### Description

Linear floor grilles in aluminium for supply or air return, with fixed bars parallel to the largest side (L size)

H1.5 classification (installation in perimeter areas, only walkable by people) according to test carried out by a credited independent laboratory, in conformity with the standard EN 1253-2.

**LMT-S** Linear floor grille with end borders and fixed bars at 0° for lengths  $\leq 2$  m.

**LMT-S-15** Grille with fixed bars at 15°.

**...-ARI** Grille with an end border on the left side, required to form lines  $> 2$  m.

**...-ARD** Grille with an end border on the right side, required to form lines  $> 2$  m.

**...-INT** Grille without end borders, required to form lines  $> 4$  m.

### Accessories

**SP** Opposed blades volume damper from zinc plated steel, in black colour.

**A90/LMT-S** Inactive grille without end borders, making a 90° angle.

### Fixing

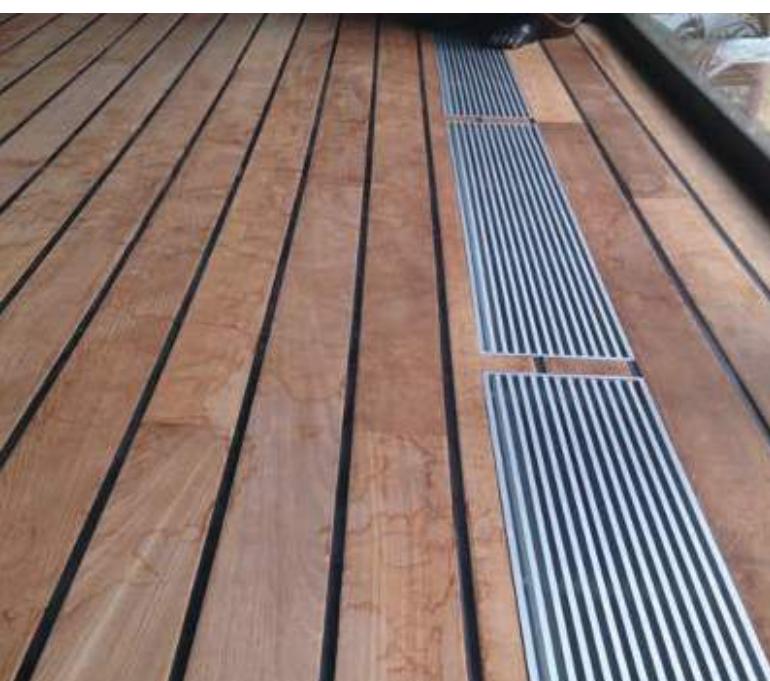

1) Hold on the floor.

### Finishes

**AA** Matt silver anodised.

### Specification Text

Supply and mounting of linear floor grille with fixed bars at 0° parallel to the largest side series **LMT-S AA dim. LxH**, constructed from aluminium and anodised in matt silver **AA**. H1.5 classification in conformity with the standard EN 1253-2. Manufacturer **MADEL**.

- 157 SMS** pressure dampers

## Circular air volume dampers

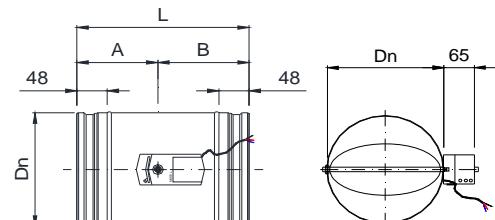

### Technical data

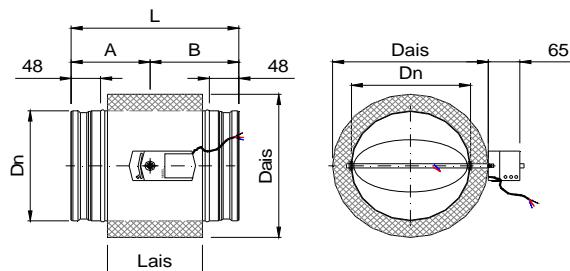

#### SCC-../MA/

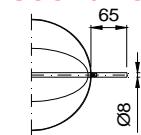

#### SCC-..+actuator

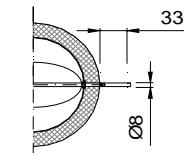

#### SCC-..+actuator/AIS/

#### SCC-../MO/

#### SCC-../MO/AIS/

### Description

Dampers to control the air flow volume and the pressure rate in circular ducts. Constructed from galvanised steel and bearings from nylon.

**SCC-R** Circular control damper.

**SCC-E** Circular control damper with air tightness joint according to EN-1751 standard and rubber connection joints.

**.../MA/** Manual control lever.

**.../MO/** Special axle to motorise.

**.../AIS/** Thermo-acoustical insulation

### Accessories

See Volume control accessories page. Mounting included on actuators price.

### Fixing

1) Connection into a circular metallic duct.

### Specification Text

Supply and mounting of airtight damper to control the air flow volume in circular ducts with manual control lever series **SCC-MA dim. 100** constructed from galvanised steel bearings from nylon. Manufacturer **MADEL**.

## Rectangular air volume dampers

### Technical data

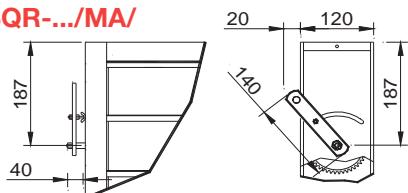

#### SQR-...

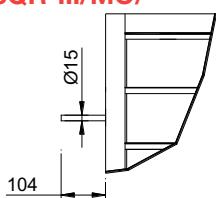

#### SQR-...

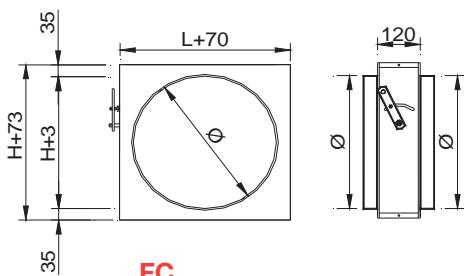

#### SQR-.../MA/

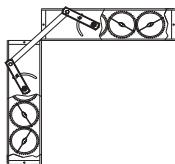

#### SQR-.../MO/

#### SQR-ECC

#### FC

### Description

Airtight dampers to control the air flow volume and the pressure rate in rectangular ducts. Dampers with blades of 100 mm, made from raw aluminium and gears from polyamide.

**SQR-H** Damper with rhomboidal profile blades, parallels to the largest side (L size)

**SQR-V** Damper with rhomboidal profile blades, parallels to the shortest side (H size)

**SQR-CC** Square damper with rhomboidal profile blades and circular connections.

.../MA/ Damper with manual control lever.

.../MO/ Damper with special axle to motorise.

### Accessories

/FC/ Free-cooling kit for assembling 2 dampers at 90° (supplement\*)

See Volume control Accessories page.

Mounting included on actuators price.

### Fixing

1) Damper designed to be jointed in ducts.

(CR) Flat connection flange.

### Specification Text

Supply and mounting of airtight damper to control the air flow volume in rectangular ducts with manual control lever series

**SQR-H/MA/ LxH** constructed from raw aluminium and gears from polyamide. Manufacturer **MADEL**.

#### SVA-C/AIS/MO/

### Specification Text

Supply and mounting of circular VAV damper with cross differential pressure measurement for adjusting the air flow, series **SVA-C/MO+GDB181.1E/3**. Diam (mm) Vmin Vmax, mode of operation of the damper type Master and 0-10V proportional control. Galvanized steel housing, cross differential pressure from aluminum, ABS fittings, measuring tubes from silicone, damper foam seal from EPDM. Manufacturer **MADEL**.

### Description

Circular air flow damper for VAV installations. They are used to adjust the air flow to a bypass or a room based on a 0-10v signal provided by a controller or temperature. The command signal sent by the controller position the actuator to control the flow of the need the enclosure. A foam seal inside the perimeter of the damper seals the air in case of total closure order according to EN-1751 standard. You can change a posteriori the flow Vmin & Vmax using a remote control. Galvanized steel housing, cross differential pressure measurement aluminum, connect in ABS and measuring tubes the actuator in red/blue silicone. Damper foam seal from EPDM.

**SVA-C** Variable air flow circular damper. Maximum air flow (Vmax) and minimum (Vmin) setting calibrated at the factory according to customer specifications. In case Vmin and Vmax it is not specified on customer's order dampers will be calibrated according to Operating Limits specified on price table.

The dampers will be configured for a parallel , 0-10 V connection. In case of using of a Master/Slave, 2-10V, 3P or other control configuration must be indicated on the order.

..**/MO/** Damper with special axle to motorise.

..**/AIS/** Thermo-acoustical insulation.

### Accessories

See page Accessories VAV. Mounting and calibration is included on the actuators price.

### Fixing

1) Connection into a rectangular metallic duct.

### Note

(\*) Below the regulation Min flow, the VAV damper can be calibrated to Vmin=0

100	96	70
125	120	86
160	155	91
200	195	91
250	244	245

### Description

Constant air volume dampers for circular duct, which facilitates balancing of ventilation systems. Those dampers maintain the constant air volume within a zone of pressure between 50 and 250 Pa. SKP is a self-adjustable damper. The damper is operated by an opposed opening force from a spring on the blade. Housing and regulator blade are constructed from plastic and tightness joint from rubber.

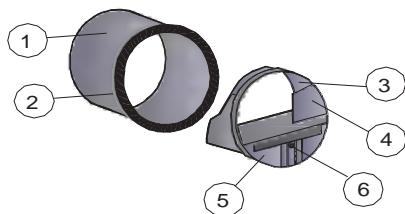

**SKP** Self-adjustable constant air volume damper. Air flow adjustment on site before installation.

### Fixing

- 1) Connection into a circular metallic duct.

### Specification Text

Supply and mounting of circular constant air volume damper and self-adjustable to facilitate balancing of ventilation systems series **SKP dim. 125-30**. Constructed from plastic and tightness joint from rubber. Manufacturer **MADEL**.

## Adjustable constant air volume dampers (CAV)

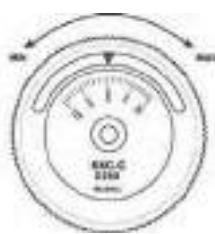

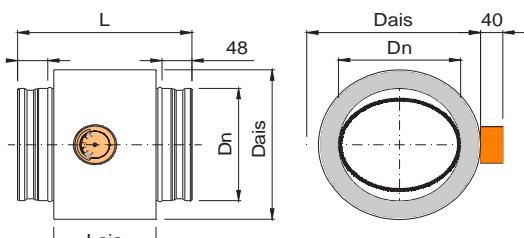

### Technical data

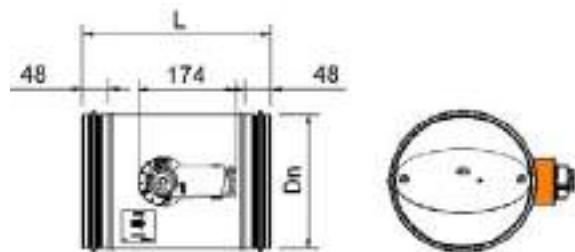

#### SKC-C /MA/

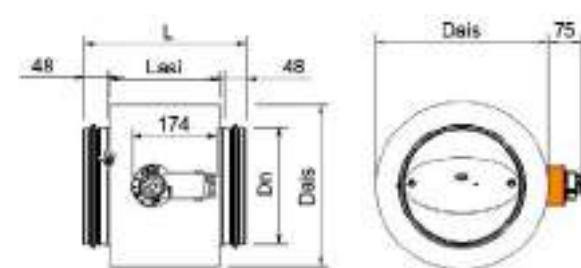

#### SKC-C /AIS/MA/

#### SKC-C /MK...

#### SKC-C /AIS/MK...

### Description

Constant air volume dampers which facilitates balancing of ventilation systems. Those dampers maintain the constant air volume at varying pressures, caused by connection and disconnection of system parts, clogging of filters and ducts, wind effects, window opening etc. SKC is an automatic damper independent of external energy sources. The damper is operated by an opposed opening force from a spring on the blade. Housing and damper blade are constructed from galvanized steel.

**SKC-C/MA** Circular damper with manual device for setting of one flow and tightness joint from rubber.

**SKC-C/MK/CM 24L...230L** Damper with Belimo On / Off actuator at 24v or 230v 2N.

**SKC-C/MK/CM 24-SX-L** Damper with proportional Belimo actuator (2-10V) at 24v 2N.

.../AIS/ Thermal insulation with foam.

### Fixing

1) Connection into a circular metallic duct.

### Specification Text

Supply and mounting of circular constant air volume damper to facilitate balancing of ventilation systems series **SKC-C/MA dim (mm)** Constructed from galvanized steel and tightness joint from rubber.

Manufacturer **MADEL**.

## Pressure dampers

### Technical data

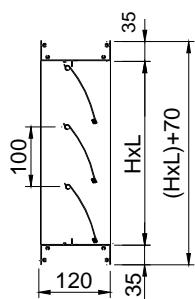

#### SMS

#### SMD

#### SMG

### Description

Pressure dampers in raw aluminium with blades of 100 mm.

**SMS** Back pressure damper with blades parallel to the largest side (L size)

**SVS** Back pressure damper with blades parallel to the shortest side (H size)

...-D Front pressure dampers.

....-G Dampers suitable for mounting into a rectangular duct.

### Fixing

1) Visible screws (for wall mounting)

### Specification Text

Supply and mounting of pressure dampers with blades of 100 mm series **SMS (T) LxH** constructed from raw aluminium and visible fixing by screws (**T**). Manufacturer **MADEL**.

## Air **filtration**

Efficiency for air quality  
Products, solutions and systems to  
ensure the best possible environment

## INDEX

**159 Guiding criteria for filters in terminal units**

**160 UFA terminal units with HEPA filter**

**161 DIF, DEC, TAS Extraction, filtering ceilings, etc...**

## 1 – Guiding criteria for filters in terminal units

There are increasing applications in which it is necessary to control the quality conditions and airflow direction, as well as the over or under-pressure levels, to guarantee that the corresponding activities can take place and eliminate uncontrolled air infiltration.

To select the type of filter, diffuser and system that is best adapted to the requirements of the project, the project designer needs to be aware of the standard practices and regulations. The products must be easy to clean and maintain (filter replacement)

### 1.1 – Applications

**Industrial:** Clean rooms for industrial processes: food / chemical / pharmaceutical / microelectronic industries.

**Hospital:** Operating rooms, laboratories, infection isolation rooms, rooms for people with immunodepression.

### 1.2 – Airflow

To maintain optimal air quality conditions, the airflow, which in most cases exceeds the sum of the ventilation flow and airflow, needs to be filtered, to lower the thermal load which will be defined by the project designer in accordance with the required ISO classification.

### 1.3 – Pressurisation

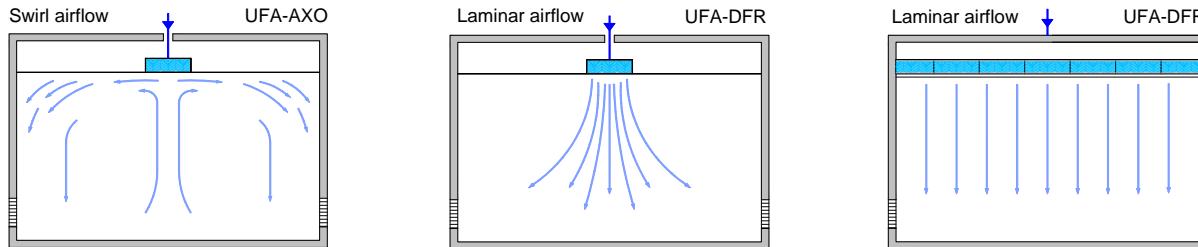

The most commonly used Pressure Differences are between +/- 8 Pa, +/- 20 Pa. Exceeding 50 Pa is not recommended as it will generate problems such as unwanted opening of doors, etc. There should be a small amount of air transfer between rooms. The pressure in the room that has to be controlled should be measured and compared against a room with stable pressure. To generate the +/- Pressure Difference, the most commonly used benchmark is 10% of the supply Flow Difference.

### 1.4 – Type of diffusion

Depending on the air flow and the type of flow required, the corresponding diffuser should be chosen:

**Swirl airflow:** For low flow rates; in this case the air quality is ensured through dissolution.

**Laminar flow:** For low and high flow rates; in this case the idea is to sweep the working areas with the primary flow.

## 2 – Basic regulations on filtering in clean rooms

SELECTION TABLE FOR CLEAN ROOMS

ISO 6	1.000.000	237.000	102.000	352.000	8.320	293
ISO 7	-	-	-	352.000	83.200	2.930
ISO 8	-	-	-	3.520.000	832.000	29.300
ISO 9	-	-	-	35.200.000	8.320.000	293.000

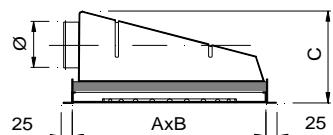

## 3 – Operating rooms/surgeries: Specific Standards EN-UNE 11425, DIN 1946, NF S 90-351, ASHRAE 170

In surgeries, the supply and extraction flows must be constant, maintaining a Flow difference to ensure the correct Pressure Difference. In surgeries, 100% of the flow will be ventilation.

### Description

The terminal units of the series UFA have the dual function of filtering the air with high efficiency absolute filters, while making the air diffusion of air into the enclosure. It consists of a plenum box made from polystyrene with a lateral circular connection.

Can be equipped with swirl diffusers or perforated face diffusers for a laminar air flow. Incorporates a pressure connector to control the pressure drop of the filter.

UFA units are suitable for high purity air installations germ free such as clean rooms and pharmaceutical laboratoires.

**UFA-AXO** UFA terminal unit with an AXO swirl diffuser and H14 filter included.

**UFA-DFR** UFA terminal unit with a DFR perforated face diffuser for a laminar air flow and H14 filter included.

### Accessories

**RH14** H14 filter for replacement in UFA units.

### Finishes

**AA** Matt silver anodised. Plenum box from white polystyrene.

**S9010** Painted in white similar to RAL 9010. Plenum box from white polystyrene.

### Specification Text

Supply and mounting of swirl diffuser AXO-S integrated in a polystyrene plenum box in white with lateral circular connection **UFA-AXO AA LxH**. Includes a HEPA filter H14 with a pressure connector to control the pressure drop of the filter. Matt silver anodised **AA**. Manufacturer **MADEL**.

## Motorised dampers for grilles for uni-zone systems

### Technical data

Z=197	Z=180
CTM	AMT
LMT-DD	LMT
	AMT-AC
	DMT
	RMT

### Description

Motorised opposed blades volume damper for grilles. Blades incorporate a PVC airtight joint. Constructed from aluminium, galvanised steel and gears from polyamide. Incompatible fixing system (O) for grilles.

### Classification

**ZP-A230** Vac 230 motorised damper, On / Off type.

### Accessories

**TF** Thermostat with cables for temperature control, using On / Off motorised dampers. Manual seasonal change over.

## Device for air flow measuring

### Technical data

### Description

Device incorporated in the plenum to facilitate the measurement of air flow. It is compatible with the families of diffusers with plenum:

RADIAL DIFFUSERS  
FIXED SWIRL DIFFUSERS  
ADJUSTABLE SWIRL DIFFUSERS  
PERFORATED FACE DIFFUSERS

$$Q (\text{m}^3/\text{h}) = K \times \sqrt{DP} (\text{Pa})$$

The factor K is a numerical constant, applied to a simple calculation. It allows control of each diffuser / grille to work on the predefined flow in the project. This value reports flow and pressure. With the pressure connection for all diffuser-plenum, you can know the air flow. To change the pressure measured, you must adjust air flow damper in the spigot of the plenum box.

**DP** Device for air flow measuring.

### Symbols

Q ( $\text{m}^3 / \text{h}$ ) = Air flow in the diffuser.  
K = Is a constant value for each diffuser and plenum box.  
This value is given in the DP or ask MADEL.  
DP (Pa) = Value measured by a manometer.

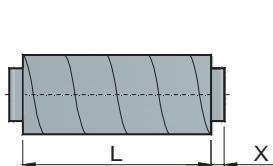

### Specification Text

Supply and mounting of stackable pyramidal plenum box with a lateral circular connection and air flow damper in the spigot, equipped with a device for air flow measuring **BOXSTAR-R+DP**, including supports to hang from the ceiling. Made from galvanised steel. Manufacturer **MADEL**.

$\varnothing d$	X
80	36
100	36
125	36
160	36
200	36
250	55

### Description

Circular silencers for circular ducts. Constructed with a helical outer tube and a perforated steel sheet inner tube, separated with acoustic mineral wool. There is a polyester tissue between the perforated steel sheet and the absorption material to avoid that the mineral wool is dragged by the air flow.

**INC** Circular silencer with acoustic mineral wool.

### Specification Text

Supply and mounting of circular silencer with acoustic mineral wool to mitigate the acoustic pressure series INC dim x L (mm). Constructed from galvanized steel and tightness joint from rubber. Manufacturer MADEL.

## Description

Fire dampers for circular duct mounting.

EIS rated dampers (integrity, insulation and smoke leakage) according to EN 13501-3 standard.

Dampers with shutting mechanism by thermal fusible link at 72°C.

An air-tightness joint prevents the propagation of smoke to low temperature, while the expanding joint is dilating to seal the damper.

Dampers made from galvanised steel and non-combustible board.

**FMC-EIS-120** Fire damper for the applications indicated in the Selection Table.

...-MA Manual resetting damper. Is not necessary to open the box device.

...-MFS Damper operated by SIEMENS actuator with switch off device.

...-MFB Damper operated by BELIMO actuator with switch off device.

...-MAF Damper operated by a solenoid. remote locking and manual reset: ask for price

(sizes A, B, C for MF... and MAF see PDF at [www.madel.com](http://www.madel.com))

## Accessories for -MA dampers

/PIF/ Open / closed switches device.

## Fixing

1) Connection into a circular metallic duct.

ACF Square piece of plaster with a circular hole in the center for mounting on flexible wall (EIS 90)

## Specification Text

Supply and mounting of fire damper for circular duct with minimal pressure drop; tested in accordance to the standard EN-13501-3 and classed EIS, **FMC-EIS-120-MFS-24 Diam.** Operated by means of an actuator with switch off device at 24V **MFS-24**.

Dampers made from galvanised steel and non-combustible board.

Thermal fusible link at 72°C. An air-tightness joint prevents the propagation of smoke to low temperature, while the expanding joint is dilating to seal the damper. Manufacturer **MADEL**.

## Description

Fire dampers for rectangular duct mounting.  
EIS rated dampers (integrity, insulation and smoke leakage) according to EN 13501-3 standard.

Dampers with shutting mechanism by thermal fusible link at 72°C. An air-tightness joint prevents the propagation of smoke to low temperature, while the expanding joint is dilating to seal the damper. Dampers made from galvanised steel and non-combustible board.

**FOK-EIS-120** Fire damper for the applications indicated in the Selection Table.

...-H Damper with blade parallel to the large side.

...-V Damper with blade parallel to the short side.

(Maximum size 800x800)

...-MA Manual resetting damper. Is not necessary to open the box device.

...-MFS Damper operated by SIEMENS actuator with switch off device.

...-MFB Damper operated by BELIMO actuator with switch off device.

...-MAF Damper operated by a solenoid. remote locking and manual reset: ask for price

(sizes A, B, C for MF... and MAF see PDF at [www.madel.com](http://www.madel.com))

## Accessories for -MA dampers

/PIF/ Open / closed switches device.

## Fixing

1) Connection into a circular metallic duct.

(CR) Flat connection flange (supplement on MA version\*)

## Specification Text

Supply and mounting of fire damper for rectangular duct classed EIS in accordance to the European standard EN-13501-3 series **FOK-EIS-120-H-MFS-24 LxH**. Operated by means of a servomotor at 24v **MFS-24**, start and end of course switches. Dampers made from galvanised steel and non-combustible board. Thermal fusible link at 72°C. An air-tightness joint prevents the propagation of smoke to low temperature, while the expanding joint is dilating to seal the damper. Manufacturer **MADEL**.

### Description

Fire dampers for rectangular duct mounting.  
EIS rated dampers (integrity, insulation and smoke leakage) according to EN 13501-3 standard.

Dampers with shutting mechanism by thermal fusible link at 72°C. An air-tightness joint prevents the propagation of smoke to low temperature, while the expanding joint is dilating to seal the damper. Dampers made from galvanised steel and non-combustible board.

**FOK-EIS-180** Fire damper for the applications indicated in the Selection Table.

...-H Damper with blade parallel to the large side.

...-V Damper with blade parallel to the short side.

(Maximum size 800x800)

...-MA Manual resetting damper. Is not necessary to open the box device.

...-MFS Damper operated by SIEMENS actuator with switch off device.

...-MAF Damper operated by a solenoid. remote locking and manual reset: ask for price

(sizes A, B, C for MF... and MAF see PDF at [www.madel.com](http://www.madel.com))

### Accessories for -MA dampers

/PIF/ Open / closed switches device.

### Fixing

1) Connection into a circular metallic duct.

(CR) Flat connection flange (supplement on MA version\*)

### Specification Text

Supply and mounting of fire damper for rectangular duct classed EIS-180 in accordance to the European standard EN-13501-3 series

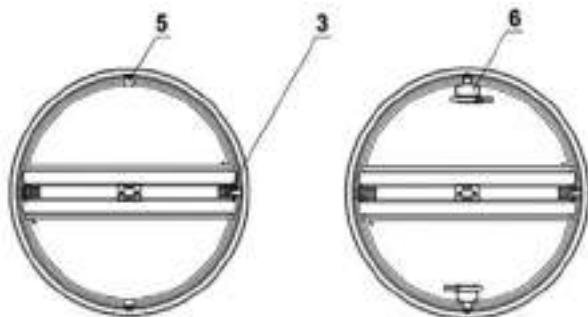

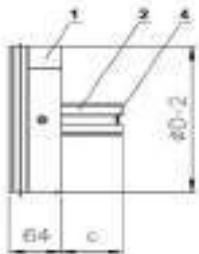

**FOK-180-MFS-24 LxH.** Operated by means of a servomotor at 24v **MFS-24**, start and end of course switches. Dampers made from galvanised steel and non-combustible board. Thermal fusible link at 72°C. An air-tightness joint prevents the propagation of smoke to low temperature, while the expanding joint is dilating to seal the damper. Manufacturer **MADEL**.

## Fire damper cartridges EIS-60 / EIS-120

### Technical data

1. Casing
2. Sealing leaf
3. Actuating spring
4. Thermal fuse
5. Locking strip
6. CIF

Ø nominal	Kg	Aeff (m <sup>2</sup> )	C
100	0,3	0,003	17,5
125	0,4	0,006	30,2
160	0,55	0,0119	48
200	0,75	0,0209	68

### Description

Fire damper cartridges for circular duct mounting.

Tested and classed EIS-60 or 120 (Integrity, Insulation and smoke leakage during 60 or 120 minutes) in accordance to the European standard EN-13501-3 at a constant pressure of 300Pa.

Fire damper cartridges with shutting mechanism by thermal fusible link at 72°C. An air-tightness joint prevents the propagation of smoke to low temperature, while the expanding joint is dilating to seal the fire damper cartridge.

These fire damper cartridges full fill the required conditions for the (S) symbol, air-tightness to cold smoke. In case of fire, poisoning by smoke is the main cause of death.

Made from galvanised steel and non-combustible board.

**FSC-60** Fire damper cartridge classed EIS 60.

**FSC-120** Fire damper cartridge classed EIS 120.

### Accessories

/CIF/ Open / closed switches device on both blades.

### Fixing

- 1) Mounting into the wall opening.

### Specification Text

Supply and mounting of fire damper cartridge for circular duct classed EIS-60 in accordance to the European standard EN-13501-3 series **FSC-60 D.200**. Fire damper cartridge made from galvanised steel and non-combustible board. Thermal fusible link at 72°C.

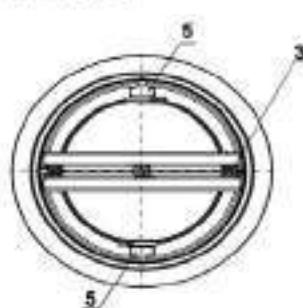

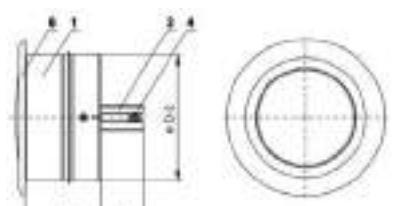

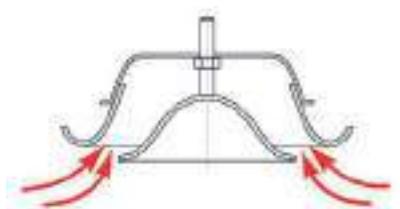

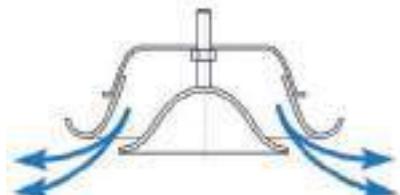

An air-tightness joint prevents the propagation of smoke to low temperature, while the expanding joint is dilating to seal the damper. Manufacturer **MADEL**.

125	0,85	0,006	30,2
160	1,2	0,0119	48
200	1,59	0,0209	68

### Description

Fire damper cartridge equipped with a ventilation valve. They function as a separating element between two fire sectors and provide the same fire resistance as the structural elements of the compartments, limiting the risk of fire spreading inside the building. Fire damper cartridge closing through bimetallic fusible link 72°C. The assembly is to be installed on a constructive element (wall or slab), the ventilation valve must be placed at duct ends and the fire damper cartridge inside the ventilation duct, in the section of the structural element.

The closing blades are made of fiber plate and lined with intumescent material. The housing is entirely made of galvanized steel and welded together. Ventilation valve for supply / extract made of galvanized steel and painted in RAL9010.

**FWC-EIS-60** Adjustable ventilation valve for supply / extract equipped with a cartridge EIS-60.

**FWC-EIS-120** Adjustable ventilation valve for supply / extract equipped with a cartridge EIS-120.

### Accessories

/CIF/ Open / closed switches device on both blades.

### Fixing

1) Mounting into the wall opening.

### Finish

R9010 Painted in white RAL 9010.

### Specification Text

Supply and installation of a fire damper cartridge equipped with a ventilation valve, series **FWC-EIS-120 /CIF/ diam. 200** with spring driven automatic closing through bimetallic fusible link 72°C. To be mounted inside same diameter circular ventilation duct, with the ventilation valve to be mounted at duct ends. Tested and certified EIS 120 according to EN 13501-3 and with CE certification according to EN 15650. Damper casing made of galvanized steel and blades made of fire resistant asbestos free boards made of mineral fibers. Fusible link set for 72° C. With intumescent sealing in order to stop the propagation of fire. Include a ventilation valve for supply / exhaust and a double limit switch contacts. With all necessary elements for installation. Brand **MADEL**.

## Transfer expanding grilles EIS-60 / EIS-120

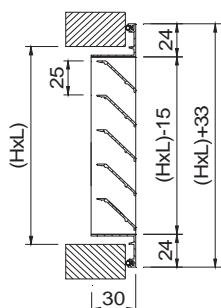

### Technical data

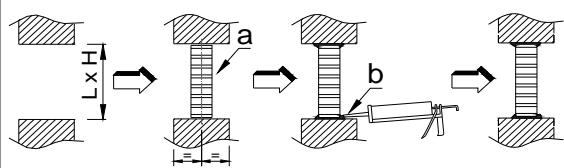

#### FTR

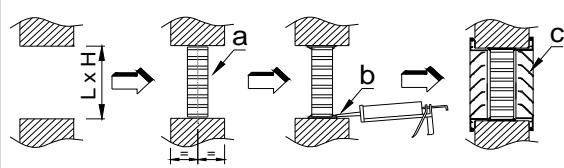

#### DMT-AR (T)

EI 60 system  
1 un FTR

EI 120 system  
1 un FTR + 2 un DMT-AR (T)

a- FTR grille.

b- Holes have to be plugged by expanding filler TM.

c- 2 units of DMT-AR (T) grilles.

### Description

The intumescent FTR grilles allow natural ventilation through compartmentation elements. They expand at a temperature of 120°C, sealing the ventilation opening. Grille constructed from sodium silicate covered in PVC. Tested according to the general requirements of EN 1363-1, complying with the criteria of integrity against fire and thermal insulation for a time of 60/120 \* minutes (EI 60 / EI 120) according to the test standard EN 1366-3.

**FTR** Rectangular expanding grille EI 60 or EI 120 according to the mounting system.

### Accessories

**TM** Expanding filler tube of 310 ml.

**DMT-AR (T)** Return grille made from aluminium with fixed blades at 45°. Fixing by visible screws. More info at DMT series.

### Fixing

- 1) **FTR** mounting into the wall opening for a resistance EI 60.
- 2) **FTR** + 2 un **DMT-AR (T)** mounting into the wall opening for a resistance EI 120

### Specification text

#### EI 60

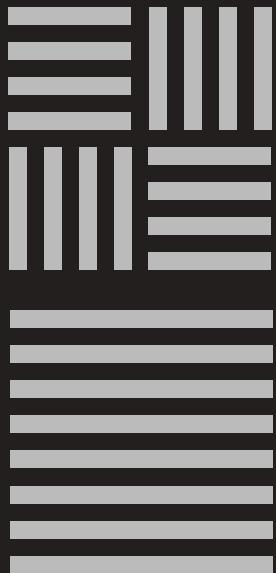

Supply and mounting of expanding grille for ventilation through compartmentation elements EI 60 (integrity and insulation during 60 min) FTR series, dim. LxH, constructed from sodium silicate covered in PVC. **MADEL** brand.

#### EI 120

Supply and mounting of expanding grille for ventilation through compartmentation elements EI 120 (integrity and insulation during 120 min) FTR series + 2 units of **DMT-AR (T)** grilles, dim. LxH. FTR constructed from sodium silicate covered in PVC and DMT-AR series from aluminium. **MADEL** brand.

\* Meets the criteria described by following the corresponding mounting system
